Home Automation

Quality and security for all your networking, AV and security applications

Exceptional build-quality and a host of features. Everything you need in a compact, 19-inch wall enclosure.

The new **CAB-W6U-EL400** is a feature-rich, 6u high wall enclosure that allows all networking, PBX, A/V and home automation to be installed within its universal standard 19-inch vertical support rails.

With an extra 400mm deep form-factor, the majority of entry to medium range networking hardware can be installed with ease, as well of course passive networking hardware including patch panels, cable management, PDUs and even rack-mount fan trays.

Fully built straight from the box, the CAB-W6U-EL400 features a front and of course reversible lockable door, removable side panels for ease of equipment access and rear vertical profiles for secure equipment fixing.

Equipped with ventilation slots for increased equipment airflow and of course easy, single person installation makes the CAB-W6U-EL400 the ideal choice for all your SME installations.

enclosures - power distribution - cabling
