

# Conclamp Type A with Terminal Block **pro-POWER**

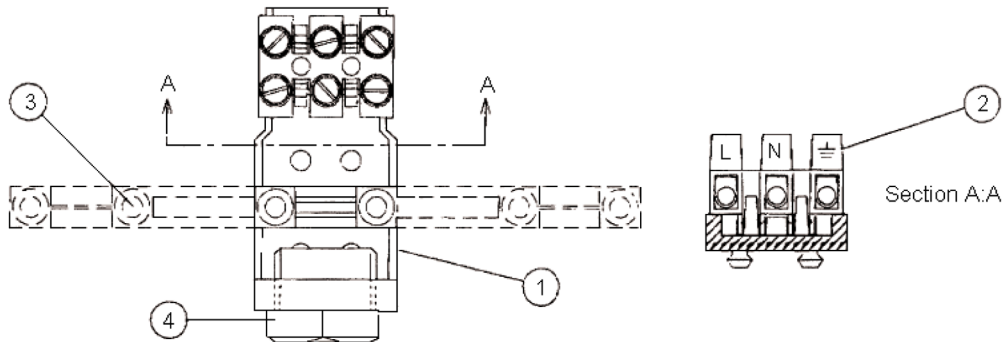

## Description

The Conclamp System is designed to combine the functions of cable entry and secure clamping and allows the additional facility of incorporating a terminal block. The Conclamp creates a safe entry for cable when used in conjunction with a hole bush or cable gland, preventing damage caused by movement against sharp edges. Once within the unit the cable is held securely using the Conclamp's integral cable clamp. Finally the cable can be terminated into the snap-on terminal block.

## Features

- High cable retention
- Right-hand assembly with terminal block
- Press-in chassis mounting
