

CodeBug

The cute, programmable, light-up wearable for everyone. An instant, fun intro to coding -- it's Creative Commons too!

CodeBug is a fun, engaging, entry-level introduction to coding and physical electronics. In just a few clicks you'll program the versatile little CodeBug computer to display your own message. You're sure to get everyone's attention as you show off your coding skills when you pin your customised, wearable CodeBug to your clothes.

It couldn't be easier!

It's really, really, easy to get started! Visit our website to create your program, then plug in the CodeBug via USB to program it. That's it! No complicated setup. Our website will even show you what to do if you get stuck! It's probably the simplest way to get into cutting edge wearable-electronics technology.
