

Burnishers

Burnishers remove oxide corrosion on relay and switch contact points, on all types of metal including platinum, silver, gold, molybdenum and tungsten. Leaves no grit, dust or film, will not affect contact points and protects valuable contact material.

POCKET TYPE BURNISHERS

Adjustment of flexible blade-length and rigidity - is possible by varying depth in chuck. Supplied with replaceable blades stored in pen barrel at other end. Plastic barrel and cap made of sturdy plastic for dielectric work. Length 4 1/2", diameter 3/8". Blades are 3/16" Wide x 1 1/2" long. Rods are ball ended, .020" diameter x 1 1/4" long.

JONARD P/N	DESCRIPTION
PB-3	Pen With 6 Blades .0035" Thick
PB-3R	(NSN 5120-00-255-4458 PID 100751221 same as PB-3 plus 6 abrasive rods
PB-7	Pen With 6 Blades, .007" thick
B-3/25	Pkg. 25 Replacement Blades for PB-3 (.0035")
B-3R/50	Pkg. 50 Replacement Rods for PB-3R
B-7/25	Pkg. 25 Replacement Blades for PB-7 (.007")

PENFILE BURNISHER

Hard-tempered steel blade surface insures minimum contact wear. Adjustment of flexible blade - length and rigidity is possible by varying depth in chuck. Plastic cap with pocket clip permits working on "LIVE" contacts. Replacement blades stored in an attractive vial. Diameter 3/8". 5 1/2" long.

JONARD P/N	DESCRIPTION
P-4	Penfile with 12 blades, 1/4" wide, .007" thick, 1 1/4" long
P-6	Penfile with 12 blades, 3/16" wide, .007" thick, 1 1/2" long
RB-4/25	Replacement blades for P-4, Pkg, 25 pcs
RB-6/25	Replacement blades for P-6, pkg 25 pcs
