CAPTURE Display

## Key Benefits

- ▶ Designed to allow users to become productive quickly due to its intuitive features, such as easy to navigate menus, tool database and Plug & Play integration with CAPTURE Sensors
- ▶ Versatile design allows static laboratory use and mobile data collection using an onboard memory and rechargeable battery. The data can then be transferred to PC via USB connection
- ▶ Minimise investment, as the CAPTURE Display is designed to integrate with customers' existing industry standard nominal 2mV/V Sensors
- ▶ To protect the CAPTURE Display when not in use it is supplied complete in a high impact plastic carry case. In addition the following items are included with the Display and are stored in the case - USB Power Cable (for charging from Mains or PC and also used for data transfer), Power Supply (multi-national), Calibration Certificate, Start Up Guide and Instructions
- ▶ CAPTURE Display can store 500 tools and 2000 data readings in the onboard memory
- ▶ Work for longer between battery charges as the unit is fitted with a long life Lithium-ion battery and has an auto power down mode
