

TK-120 - Fiber Prep Kit

The TK-120 fiber preparation kit provides you with all the tools needed to access and prepare a fiber optic cable for termination.

The kit includes: CST-1900, CSR-1575, FOD-2000 and MS-6 for opening various types of fiber optic cables, the JIC-375 fiber stripper and JIC-186 Kevlar cutter for prepping the fiber for termination. Other tools included with the kit are the SD-61 multi bit screwdriver FL-2000 flashlight, JIC-2288 diagonal cutter, JIC-842 long nose plier and FW-5 fiber wipes. All these tools are provided in a rugged tool case with extra pockets for extra tools, connectors and many other items.
