

CP-390

USB
3-Button
Scroll-Wheel
Optical Mouse

Comfortable, accurate optical tracking

Economical USB mouse connectivity for all applications

Looking for a low cost but good quality optical mouse, ideal for almost any surface?

The new Compoint CP-390 offers just that. High resolution optical tracking is ideal for both gaming as well as general business applications, for Windows(tm), Mac(tm), Linux(tm) and a whole lot more besides including the Raspberry PI (tm).

Integral, generous length USB cable comes as standard, as well as both left and right-hand usage, the sculptured mouse design helps reduce common hand ailments if used for an extended period of time.

3-button control and central scroll-wheel means you have full control of your computers' applications such as word processing, spreadsheets, browsers and of course your favourite games and leisure applications.

Advanced features:

- USB connected Optical Mouse with generous cable length
- Plug n' play - Operating System independent operation
- Up to 1000 dpi optical tracking - ideal for most surfaces
- Superior comfort design - left or right handed operation
- 3-Button and accurate central scroll wheel
- Ideal for Windows(tm), Mac(tm), Android(tm) and more
- Ideal for computer projects inc. Raspberry(tm)PI systems
- Quality retail packaging

* Single USB port required
