

Ergonomic Cable Tie Installation Hand Tools

Comfort, Performance and Durability

Choosing the right installation tool increases productivity and promotes worker safety for the lowest installed cost. The GTS-E and GTH-E tools are part of the Panduit ergonomic series of hand-operated, tool-controlled tension, and cut-off cable tie installation tools.

- **GTS-E** Tool installs subminiature (8 lbs.) through standard (50 lbs.) cross section cable ties
- **GTH-E** Tool installs standard (50 lbs.) through heavy (175 lbs.) cross section cable ties

The ergonomic series of tools is excellent for low to medium volume applications (under 50,000 ties/year) in the OEM, MRO, and Construction Markets. Panduit leads the industry in providing the most preferred cable tie installation tools for their complete line of Panduit cable ties.

Key Features and Benefits

- **Improved cable tie cut-off mechanism that minimizes the impact to the installer's hand by more than 40% - the lowest in the industry**
- **Low handle force required to cut-off the cable tie - 15% lower handle force than comparable tools**

Cable Tie Installation Hand Tools – Comfort, Performance and Durability

To change the tension setting, pull back the Tension Adjustment Knob, match it to the appropriate cable tie cross section tension setting, and disengage the knob.

Easy to read Tension Setting Label eliminates guesswork.
