

Kärcher's FP303 vacuum floor polisher offers an all-in-one solution for the care and maintenance of hard floors. The lightweight Kärcher FP303 floor polisher has high-speed rotating brushes, ideal for polishing all hard floors. With its innovative triangular polishing head, you can be sure to be rid of any dust bunnies in the corners of your room. The flat polishing head also makes it easy for you to polish under furniture. The FP303 has a vacuum function, which collects dust with its powerful suction. The removal pads can be stored in a space-saving accessory compartment, making the storing of this device simple. Polishing with an FP303 floor polisher will extend the period between cleans, while providing optimal care and maintenance for the floor. Frequent polishing will make your floor more resistant to abrasions, humidity and dirt, while making your floor more pleasing visually. Additional floor care products are available to use alongside the FP303, such as waxes, which combined with the high pad rotation of the floor polisher will help build a smoother surface. You'll be left with brilliant results – a clear polish that not only shines, but protects too.

**FP 303**

- Perfect polishing result thanks to high pad rotation
- Ergonomic construction and optimized shape
- Accessory storage on the device
