

Product/Process Change Notice - PCN 14_0246 Rev. B

Analog Devices, Inc. Three Technology Way Norwood, Massachusetts 02062-9106

This notice is to inform you of a change that will be made to certain ADI products (see Appendix A) that you may have purchased in the last 2 years. **Any inquiries or requests with this PCN (additional data or samples) must be sent to ADI within 30 days of publication date.** ADI contact information is listed below.

Note: Revised fields are indicated by a red field name. See Appendix B for revision history.

PCN Title: Qualification of ASE Chungli, as an Alternate Assembly Site for Select MSOP Devices

Publication Date: 31-Aug-2015

Effectivity Date: 31-Aug-2015 *(the earliest date that a customer could expect to receive changed material)*

Revision Description:

Removing parts not transferring.

Description Of Change

ADI has qualified and will be utilizing Assembly subcontractor ASE Chungli, Taiwan for 8L and 10L MSOP devices. ADI has qualified ASE Chungli's standard bill of materials in the MSOP package.
See attachment for changes to die attach and mold compound.

Reason For Change

The use of ADI qualified ASE Chungli as an additional assembly site for this package will ensure continued source of product supply. ADI's assembly subcontractors manufacture our products using Analog Devices specified manufacturing flows, process controls and monitors. This assures that our customers receive the same level of quality and reliability on products they receive from qualified ADI manufacturing locations.

Impact of the change (positive or negative) on fit, form, function & reliability

There is no change in device functionality, fit, form and reliability. Only the country of origin will be changed on the package as marked on the bottom side of the package with the mold tool mark or laser marked.

Product Identification *(this section will describe how to identify the changed material)*

Devices assembled in ASE Chungli will have a tool mark or laser marking at the backside for the country of origin; in this case TAIWAN.

Summary of Supporting Information

Qualification has been performed per ADI0012, Procedure for Qualification of New or Revised Processes. See attached Qualification Report Summary.
