DESCRIPTION AND PURPOSE OF CHANGE:

The change will not affect the specifications and technical values. Due to increasing demands of customers, Würth Elektronik eiSos implemented additional production lines to expand the existing production capacities. The production lines are at different production facilities. Therefore the product has different countries of origin and there will be minor visual differences related to different toolings at the production facilities. The production sites can be identified via the 1st 3 digits of the production lot number and is printed together with the country of origin on the Würth Elektronik product label. The scheduled date of supply availability is 2013-08-01.

Process approval is according to reliability requirements and is internally released by the Quality Department and the Product Management Department.

DETAIL OF CHANGE:
