

Reset buttons

Smile

Smile reset buttons have compact housings with M12 connectors for easy connection.

The reset button contains an integrated white LED, and all buttons are delivered with a kit of colored filters to snap on the top of the button. In this way the color of the button can be chosen after delivery and is also possible to be changed later.

Several models are available to suit different needs of connection and communication (e.g. OSSD or dynamic signals). The different models also allow a choice of:

- local reset connected directly to the sensor, or
- global reset connected to the safety control module.

Easy to install

Easy to attach to profiles

The centered mounting holes make Smile easy to attach to e.g. aluminum extrusion profiles.

Speed up installation

The housing requires no assembly and the M12 connectors speed up installation and reduce the risk of connection error.

Space saving

Compact housing

A compact and appealing housing saves space and makes it easy to place.

Connection examples

Reset to Orion with Tina 10A/C

Connection of Smile 11 ROx to Orion through M12-3R.
For connection to any control module compatible with OSSD outputs.

Reset to Orion with Tina 10B

Connection of Smile 11 ROx to Orion through Tina 10B
For connection to Vital control module or Pluto Safety PLC.

Reset to Eden

Serial connection of Eden with individual Smile reset buttons:
- Adam OSSD-Reset M12-8 with Smile 12 RG and M12-3G or M12-3H
- Adam DYN-Reset with Smile 12 RF and M12-3A

Technical data

Approvals	
Power supply	
LED operating voltage	+24 VDC (maximum +33 VDC)
LED current consumption	20 mA at +24 VDC, 30 mA at +33 VDC
Push button operating voltage	Min: +5 V, max: +35 V
Push button current	Min: 1 mA, max 100 mA
Push button rated power	Max: 250 mW
Mechanical data	
Color - Enclosure	Yellow
Color - Push button	White
Material - Housing	Polypropylene PP
Material - Contact	Au
Size	84 x 40 x 36 (L x W x H) + 12 mm for M12 connector (L)
Weight	Approx. 60 g
Protection class	IP65
Connectors Smile 11 RA/B/O	M12-5 pole male connector
Connectors Smile 12 RF	M12-5 pole male and female connectors
Connectors Smile 12 RG	M12-8 pole male and female connectors
Mechanical life	1.000.000 operations at 10 mA/+24 VDC
Switching reliability	10 x 10 ⁻⁶ at 5 mA/+24 VDC Environmental data
Environmental data	
Ambient temperature	-25...+55°C
Humidity range	35 to 85% (with no icing or condensation)
