

1 June 2015

To: All Wakefield-Vette Distributors

From: Jo Ann Johnston

Subject: Changes in Chemical Labeling

There is an ongoing global initiative to comply with REACH labeling requirements.

Wakefield-Vette has been working towards compliance that will affect thermal compound and adhesive materials we sell thru our distribution channel. New labeling becomes effective June 1, 2015 for manufacturers. It is our understanding that distributors have until December 1, 2015 to be in compliance. This will give you time to sell down your on hand inventory with the old labeling.

Effective June 1, 2015 all product listed below shipped to you from Wakefield-Vette will have new labeling:

120 series: 120-2, 120-5, 120-8, 120-80, 120-320, 120-1280, 120-SA

122 series: 122-2, 122-10CC, 122-30CC

126 series: 126-2, 126-4, 126-4S, 126-5LB

152-1A

152-1B

152-G

152-KA

152-Q

153-Q

154-Q

155

156-K

A-4

B-4 – Effective June 1, 2015, this part will now be packaged in 4 oz. bottle containing 55 grams (same amount of hardener but in larger bottle). The new bottle size is required to support the new labeling requirements.

NEW SDS (Safety Data Sheets) are being finalized. We will post to our website and supply you the link.

Please direct any questions to myself [jjohnston@wakefield-vette.com](mailto:jjohnston@wakefield-vette.com); or to our Director of Quality, Bill Michaud [bmichaud@wakefield-vette.com](mailto:bmichaud@wakefield-vette.com).

Best regards,

Jo Ann Johnston
