

To: Greenlee Sales & Customer Service
From: Feras Khouri, VDV Product Manager
Subject: Rebranding notice
Date: March 24, 2016

Team,

This announcement is to notify you all that the NC-100 will be rebranded to Greenlee Communications and shipping in a new black color as opposed to the old forest green. If forecast holds true, the new units will begin to ship in about 1 month from today. We should be receiving samples by the end of next week, so if anybody would like photos please reach out to me directly. The NC-500 will also be rebranded and switched to black, however if forecast holds true, this will not happen until late 2016 or early 2017. The pad printing on the products will remain white.

If anybody has any questions, please let me know.

Regards,

Feras Khouri
Product Manager
Greenlee Communications
