

## **CIT Dark Star Gaming Case With LED Fan and USB3.0**

CiT Dark Star gaming case, is an excellent solution for PC gamers with limited space, with its chiselled front panel look and with a steel mesh panel creating an excellent design feature to this case.

The side window and black coated interior and exterior enhances any LED lighting used within your system.

The cooling system consists of a 1 x 120mm LED fan at the back and on the steel mesh panel of the front panel a card-reader is included, along with the internal cable management, allowing for increased airflow through your system, which will aid in cooling. The PSU intake comes from the external part of the case, at the bottom, thus aiding in the PSU running at its optimal temperature.

With the I/O Panel being situated at the top of the front panel, giving you easier access to the 1 x USB3.0, 2 x USB2.0 and HD Audio (Headphone and microphone), allowing for connection to a wide variety of devices.

### **Key Features**

- **I/O port** - USB2.0 x 2, HD Audio and USB3.0 x 1
- **Card-Reader** - SD/TF
- **Fan** - 1 x 120mm Blue LED fan at the back is included.
- **Side Window** - Clear side window allowing you to show off your internal components.
- **Front Panel** - Can fit up to 5 fans at the front, including 3 x 120mm and 2 x 140mm.
