# Aluminum Foil Scrim Tape TCFSK

## General Description

TCFSK is a dead soft aluminum foil / 3-way fiberglass scrim / paper carrier coated with an aggressive adhesive carried on a removable paper release liner.

## Applications

- Closure system for fiberglass and mineral wool insulation systems that are faced with foil, to seams and joints on aluminum faced fiberglass duct board
- Providing vapor barrier that assures the integrity of the system

## Product Benefits

- Malleable foil conforms well to irregular and curved surfaces to maximize adhesive contact and provide quick, positive grab to the installation surface.

## Technical Data

TECHNICAL PROPERTIES	
Tape Thickness Without Liner	6.8 mil
Temperature Resistance	-4F to 176F

ADHESIVE TEST DATA	
Adhesion	90 oz./in
Adhesive	Rubber
FSK Backing	4.8 mil
Rolling Ball Tack	8 in.

**NOTE:**

1. When applying pressure sensitive adhesive films to any surface, be sure that the surface is free from oil or other surface contaminants such as powder, dust, or release agents. Adhesive performance should be carefully checked when used on substrates containing plasticizers.
2. Shelf life is one year from date of shipment when stored in a cool dry place below 76° F (24°C). Rolls should be stored on end.
3. The above values are "Typical Values" which have a nominal range about them and are not intended for specification purposes.
