Duct Tape Strips w/Reflective Strips

DTSWR-Series

General Description

DTSWR series is a very conformable, low cost waterproof tape with a harder adhesion which bonds well to most surfaces over a wide range of temperatures. This tape is a combination of advantages from out existing polyethylenes for cost and clean removal. Affixed down the center of the tape strips is a strip of 3M 3400 Series Reflective Tape. The reflective properties of this strip help to easily identify objects. Red tape w/silver reflective, silver tape w/yellow reflective and white tape w/red reflective are available.

Applications

Basic applications are for wire identification, color-coding, display, polyethylene splicing, surface protection and clean room application while increasing visibility to objects and apparel.

Composition

Backing: Polyethylene, colored
Adhesive: Synthetic rubber based, clear

Technical Data

TECHNICAL PROPERTIES	
Total Thickness	7.0 mils
Tensile Strength	436 lb/inch
Elongation	75%
Adhesive Color	Clear
Adhesion to Steel	67 oz/inch
Adhesion to Backing	39 oz/inch
Waterproof	6.2
