

Snap Fit Cable Protectors

Vulcascot's comprehensive range of Snap Fit profiles is available in black, grey and beige.

These products are designed to house one or more cables in multi combinations to suit any type of indoor application allowing the user complete flexibility to tidy and secure a whole range of cable sizes.

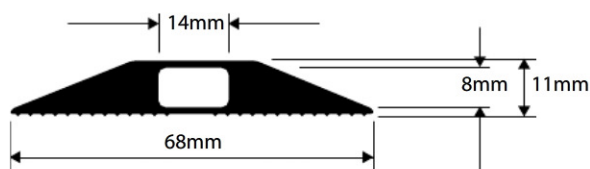

Each profile features a unique membrane located in the base for fast, easy fitting. simply snap open the membrane, push in the cables and lay the protector complete with cables in position, on the floor.

Snap Fit products are ideal for preventing tripping and falling over untidy, loose cables as well as protecting cables from damage. Without doubt this is the perfect solution for all round protection from danger in offices, shops, laboratories, exhibition halls, hospitals and schools.

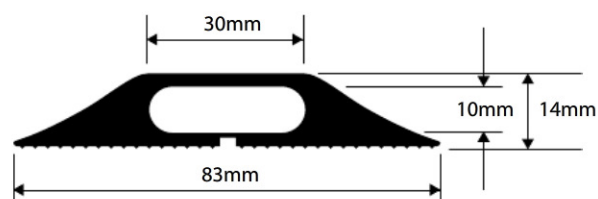

For added safety our flexible cable protectors are:-

- Fire tested to BS 476 part 7 class 3
- Halogen free in the event of fire
- Low smoke, non toxic fume levels
- Tested for non conductivity to BS 903 C5 500V
- UV stabilised for extended out door life
- Latex free ideal for hospitals
- Easily reusable when needed
