

# Heavy Duty Cable Protectors

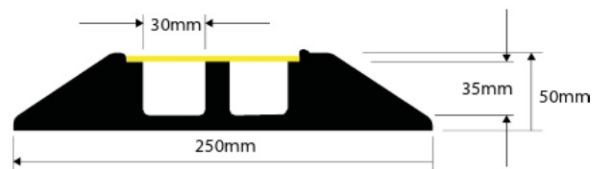

**Heavy duty cable protectors each with a flip lid to enable quick and easy cable fitting without removing plugs.**

The "flip" lid is produced from a very strong bright yellow plastic which is easily visible from a distance.

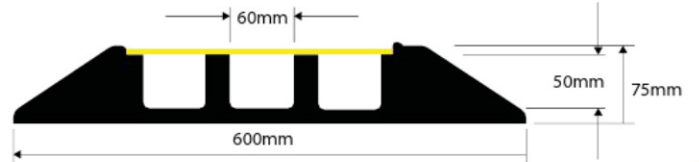

For added safety our heavy duty cable protectors:-

- Have two or three large carrying compartments
- HDVCP/3 doubles as a permanent traffic calmer
- Fully interlocking system for extended lengths
- Model HDVCP/3 has a 6000 kg axle weight loading
- Traffic travelling too fast will quickly recognise the hazard ahead and slow to a safe speed
- This system can be free laid or bolted to the ground

**HDVCP/2** - Suitable for pedestrian use only

**HDVCP/3** - Can be used with vehicles with axle weights up to 6000 kgs

**Available as follows:-**

HDVCP/2 1000mm lengths

HDVCP/3 900mm lengths
