

Product Change Notification

Product Group: VISHAY / June 8th 2017 / PCN-SF-192-2017 Rev 0 page 1/2

HIGH FREQUENCY CH02016 SERIES

DESCRIPTION OF CHANGE:

Green Ink added on the rear side of the CH02016 resistor and new tape and reel

CLASSIFICATION OF CHANGE:

Labeling / Packing

REASON FOR CHANGE:

- 1- As the CH02016 part is almost cubic, the green ink allows to position it correctly in the tape.
- 2- Improved Tape and Reel processing

EXPECTED INFLUENCE ON QUALITY / RELIABILITY / PERFORMANCE:

- 1- Avoids bad positioning of the parts in the tape (reliability)
- 2- Reduced failure number of the parts taken in the holes of the tape (reliability).

Note :

The green ink is not conductive. The CH02016 resistors with green ink show exactly the same microwave behavior than the CH02016 resistors without green ink. Moreover, the green ink is only usefull to position correctly the CH02016 resistor in the tape, it is only a visual indicator, there is no other goal.

PRODUCT CATEGORY:

Resistors

PART NUMBERS/SERIES/FAMILIES AFFECTED:

CH02016 series

VISHAY BRAND(s):

VISHAY SFERNICE

TIME SCHEDULE

Samples Availability	Start Shipment Date	Last Buy Order *
August 1 st , 2017	October 1 st , 2017	December 31 st , 2017

PRODUCT IDENTIFICATION:

Green side of the CH parts

QUALIFICATION DATA:

Available upon request.

Product Change Notification

Product Group: VISHAY / June 8th 2017 / PCN-SF-192-2017 Rev 0 page 2/2

This PCN is considered approved, without further notification, unless we receive specific customer concerns before November 1st, 2017 or as specified by contract.
