Optimization heavy|mate E series inserts with wire protection

Dear Sir or Madam,

We continually strive to improve our high level of technical development. Therefore we are taking constantly direct measures to optimize our product range.

We have optimized our inserts with wire protection, heavy|mate E-series inserts for all sizes E6, E10, E16 and E24 will have small optical modifications, without any changes on their technical function or specification.

Please see the pictures (for example Size E16) below which show the optical modifications.

The actual inserts will be replaced by the new ones after using up existing stock.

Kind regards,

Amphenol-Tuchel Electronics GmbH

Volker Häusler
