

## Product/Process Change Notice - PCN 16\_0077 Rev. C

Analog Devices, Inc. Three Technology Way Norwood, Massachusetts 02062-9106

**\*\*\*\*\* ATTENTION: THIS PCN IS BEING CANCELLED! \*\*\*\*\***

This notice is to inform you of a change that will be made to certain ADI products (see Appendix A) that you may have purchased in the last 2 years. **Any inquiries or requests with this PCN (additional data or samples) must be sent to ADI within 30 days of publication date.** ADI contact information is listed below.

*Note: Revised fields are indicated by a red field name. See Appendix B for revision history.*

**PCN Title:** Conversion of Select 4x4, 5x5, 6x6 and 7x7mm LFCSP Package Outlines from Punch to Sawn and Transfer of Assembly Site to ASE Korea.  
**Publication Date:** 13-Sep-2017  
**Effectivity Date:** Effective upon publication.

### Revision Description:

The parts are no longer transferring to ASE Korea and this PCN will therefore be cancelled.

### Description Of Change

ADI has qualified and will be utilizing Assembly subcontractor ASE in Korea for LFCSP products in 4x4, 5x5, 6x6 and 7x7mm packages. ADI has also qualified ASE's standard bill of materials in a SAWN singulated leadframe. See attached for BOM changes, package outline and pin one ID differences.

### Reason For Change

Sawn LFCSP is ADI's technology direction for LFCSP. The use of ADI qualified ASE-Korea as an assembly site will ensure continued source of product supply. ADI's assembly subcontractors manufacture our products using Analog Devices specified manufacturing flows, process controls and monitors. This assures that our customers receive the same level of quality and reliability on products they receive from qualified ADI manufacturing locations.

### Impact of the change (positive or negative) on fit, form, function & reliability

The devices function and reliability as specified by the product datasheet will be unaffected by these changes. The Foot Print Dimension will remain the same for both punch and sawn LFCSP packages.

### Summary of Supporting Information

Qualification has been performed per Industry Standard Test Methods. See attached Qualification Results Summary.

### Comments

Removed from the Supporting Documents are the reference POD spec number change and overlay drawing specific for ADCLK854 FG models.
