

## **EAD200D** **Air Duster**

EAD200D is a non-flammable product designed for the safe removal of dust and airborne contamination from very delicate or inaccessible areas of electrical and electronic equipment.

- Inert, pure compressed gas for dust removal
- Ideal for removing particulates from inaccessible areas on delicate equipment
- Non-flammable propellant with very low GWP

### **Typical Properties**

Colour	Colourless
Flash Point (°C)	None
Boiling Point (°C)	-19
GWP (vs. CO <sub>2</sub> , 100yr ITH)	6

<b><u>Description</u></b>	<b><u>Packaging</u></b>	<b><u>Order Code</u></b>	<b><u>Shelf Life</u></b>
Standard Airduster	200ml Aerosol	EAD200D	48 months

### **Directions for Use**

EAD200D should be used in a vertical position or at an angle of not greater than 60° to the vertical otherwise a freezing effect will result. If it is necessary to tilt the aerosol more than this, use the invertible version, EADI.

**Caution:** Do not use EAD200D for prolonged blasts as the surface of the can will form frost.
