

EADI200D

Air Duster

EADI200D is a non-flammable product designed for the safe removal of dust and airborne contamination from very delicate or inaccessible areas of electrical and electronic equipment. EADI200D is an invertible version, which is particularly useful for very intricate equipment or items which cannot be moved for cleaning or maintenance.

- Inert, pure compressed gas for dust removal
- Ideal for removing particulates from inaccessible areas on delicate equipment
- Non-flammable propellant with very low GWP

Typical Properties

Colour	Colourless
Flash Point (°C)	None
Boiling Point (°C)	-19
GWP (vs. CO ₂ , 100yr ITH)	6

<u>Description</u>	<u>Packaging</u>	<u>Order Code</u>	<u>Shelf Life</u>
Invertible Airduster	200ml Aerosol	EADI200D	48 months

Directions for Use

EADI200D should be used if it is necessary to tilt the aerosol greater than 60° to the vertical.

Caution: Do not use EADI200D for prolonged blasts as the surface of the can will form frost.
