WHEN PERFORMANCE MATTERS MOST™

Visual Safety & Productivity Solutions
For The Chemical, Oil & Gas Industries

Visuals enhance process safety, reliability and efficiency!

Visuals play a critical role in the chemical, oil and gas industries. Chemical processing facilities, petroleum refineries, drilling rigs and tank terminals are all characterized by their hazardous work environment, asset intensive operations, and mission critical processes. In these environments, equipment failure and human error can not only cost millions of dollars in lost production, but can also result in death or serious injury to workers and bystanders.

In most facilities, the control rooms employ real-time information systems and graphical digital displays to keep board operators informed, however the physical plant outside the control room is often only minimally identified. This leaves field operators to rely on their past training and experience as they navigate pipes, vessels and instruments. The lack of visual information and instructions in a production unit puts all individuals within the plant at risk.
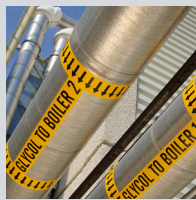

Visuals such as pipe markers, tank placards, valve tags, equipment labels and safety signs provide the following critical benefits:

- Enhanced safety and compliance
- Increased capacity and reduced scrap
- Faster, safer shutdowns and turnarounds
- Less downtime and unplanned maintenance
- Longer equipment life and higher return on assets
- Easier job training and less likelihood of human error
- More efficient operations and enhanced production flexibility

Enhance safety and compliance with Brady's visual workplace solutions.

Software

MarkWare™ Lean Tools Facility Identification Software

MarkWare™ Lean Tools is a general industrial identification software application that lets you easily create professional-looking signs, labels and other visuals directly on your computer.

- Print to a Brady label printer* or to most Windows™ inkjet / laser printers
- Pre-formatted templates make general industrial label creation quick and easy
- Select from over 1,000 scalable symbols or import your own logos and photos
- Create barcodes from 15 different symbologies
- Automatically merge data stored in external spreadsheets and databases.

Use MarkWare Lean Tools software to create:

- Safety signs and labels
- Pipe markers and valve tags
- Tank and vessel signs
- Equipment and instrument ID

- Maintenance and inspection tags
- Inventory and storage labels
- Hazardous chemical labels
- And more!

Online Video & Demo:

www.BradyID.com/Markware

Built-in library with over 1000 high-quality, scalable symbols and pictograms

* Multicolor and cutout labels can be created using Brady's GlobalMark® printer. For monocolor labels, use Brady's BBP®31 label printer. See pages 6 for more information.

LabelMark™ Professional Labeling Software

Brady's LabelMark™ Labeling Software offers features that make creating labels more efficient. Written specifically for identification applications in the telecommunication, laboratory and electrical markets where wire and cable marking is a constant and tedious job.

LabelMark™ Labeling Software is the easy solution for label design, editing and printing. LabelMark™ Software is a fast system for creating new labels and printing professional, accurate and legible labels.

With built-in templates, wizards, fixed text labels and free form design, LabelMark™ Software simplifies label making in the electrical, industrial, aerospace, laboratory, and telecomm industries.

Features include:

- Insert AutoCAD drawings into label designs
- Batch print multiple label files in a single job
- Group related labels in user-designated job files
- Add text, images, shapes, and 1- or 2-D barcodes
- Import data from text files, spreadsheets or databases

Use LabelMark Professional to create:

- Wire and cable markers
- Terminal block labels
- Patch panel and face plate ID
- Control panel and component marking
- Rating and serial plate ID
- Asset identification labels

BRADY WHEN PERFORMANCE MATTERS MOST™
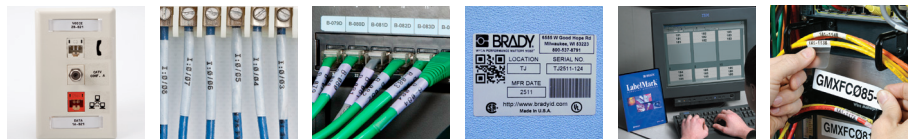

Link360™ Software

Create easy-to-understand procedures that make it easy for employees to properly perform critical lockout and maintenance tasks!

LINK360™ software is a cloud-based solution that takes the time and labor out of creating and managing standardized work procedures. All files are stored and accessed via the internet, eliminating the hassle of having to install and upgrade software on a company computer or network.

The software provides advanced functionality that allows anyone to create visually-instructive procedures in a matter of minutes. It also includes sophisticated features for approving, auditing, updating, deploying and tracking procedures.

Customers can subscribe to one or both of the currently available centers offered through LINK360™ software:

Lockout/Tagout

- **Lockout Tagout Center:** Users can create and manage visually instructive lockout procedures, tags, and energy source labels for printing and posting on equipment.

Maintenance

- **Reliability Center:** Manages the creation and access to visually instructive maintenance procedures that assist operators, engineers, and technicians in maintaining machine and equipment performance levels.

Example Maintenance Procedure

Example Lockout Tagout Procedure

! More Information:

For more information, visit **www.BradyID.com/Link360** or call an Inside Sales Representative at 1-888-311-0775.

InspectNTrack Inspection Management Software

InspectNTrack is a web-based inspection management software designed to schedule, track, and document inspection and maintenance activities or audits on any type of checkpoint. Used with Pocket PCs or tablets, it is the ideal solution for compliance based inspections regulated by any authority having jurisdiction (AHJ).

Features

- Assign tasks and task intervals
- Organize checkpoints into routes and zones
- Guide inputs using structured question sets
- Display reports and dashboards
- Auto-trigger incident reports
- Compatible with handheld pocket PCs

Use InspectNTrack software to manage inspections of:

- Fire extinguishers, fire hoses, etc.
- Breathing apparatus
- Fall-protection harnesses
- Fire/chemical resistant suits
- Safety showers and eyewash stations
- Maintenance inspection points
- Fugitive emissions

InspectNTrack is available in a Standard or Enterprise version. The Enterprise version offers tracking at multiple sites as well as the tablet functionality.

! More Information:

For more information, visit: **www.BradyID.com/InspectNTrack** or call an Inside Sales Representative at 1-888-311-0775.

Printers

Brady Industrial Labeling Printers

Brady's offering of labeling systems lets you create virtually any type of industrial identification onsite and on demand – including everything from small-format wire and cable markers, to valve tags, pipe markers, equipment labels and even large-format NFPA diamond placards and safety signs.

The Brady Durability Advantage

Our visual workplace solutions meet your needs when it comes to critical performance factors, such as UV, thermal, chemical and abrasion resistance, or adhesive properties that will stick and stay stuck to a wide variety of surface materials and types.

For example, we know that customers don't just need outdoor durability OR chemical resistance OR the ability to withstand extreme temperatures. You often need it ALL in one solution. Brady's B-595 indoor/outdoor adhesive vinyl labels are designed and tested to provide superior print durability and adhesion properties that meet or beat the various specialty materials offered by competitors – all in one versatile, high-performing solution.

What Type of Identification Do You Want to Create?

Brady's industrial label systems can be divided into three categories that correlate to specific user needs and applications.

General Industrial Label Printers

Equipment & Facility ID

Safety & Facility Signs

Pipe and Valve Marking

RTK Container Labels
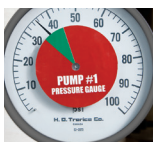

PM Inspection Labels

5S / Lean Labeling

Electrical / Telecomm Label Printers

Self-Laminating Wire Markers

Heat-Shrink Wire Markers
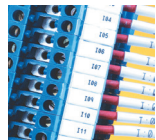

Terminal Block Labels

Patch Panel Labels

Outlet / Faceplate ID

Control Panel Labels

Portable Label Printers

Stock Labeling

Wire & Cable Markers

Electrical ID

Equipment ID

Warning Labels

And other small-format labeling for general industrial, electrical and datacomm applications

BRADY WHEN PERFORMANCE MATTERS MOST™

General Industrial Label Printers

The Brady printers shown below are specially designed to create large-format output, which is ideal for safety, facility, process & equipment identification applications.

Prints Large 10" Labels

BBP®31 Sign & Label Printer
Ultimate facility & safety printer for walk-up-and-print ease of use and ease of label changeovers. Best choice for multi-user, "Lean event" labeling situations, and centrally located print areas.

GlobalMark®2 Industrial Label Printer
Rugged Safety & Facility ID printer with advanced capabilities of printing multiple print colors onto a label and cutting out basic shapes & text. Ideal for Lean, 5S,and Plant Reliability labeling programs as well as pipe marking and general facility ID.

PowerMark® Sign & Label Printer
Large-format Safety & Facility ID printer with advanced capabilites of printing onto 10" wide material and printing multiple colors onto a label. Ideal for safety signs and any time larger multicolor labels or text are needed.

Portable Label Printers

Brady's portable label printers are lightweight, extremely rugged and reliable. The features and media make these printers suitable for use in low-volume, small-format label applications for general identification and electrical / datacomm identification.

BMP®21 Label Printer
Simple to operate and quick to print, it's the must-have labeling tool for voice and data comm, electrical and general industrial crews. Create your labels just once, knowing they'll stay stuck and stay legible for years ahead.

BMP®51 Label Printer
Helps you get the job done faster, easier and with confidence. This labeler has the versatility, print capabilities and convenience to help you tackle your toughest labeling jobs in a snap.

BMP®71 Label Printer
Brady's most versatile portable printer. This easy-to-use labeler can help you cut material waste, save label making time, and print crisp labels more efficiently than ever before.

Printer Specifications

	BMP®21	BMP®51	BMP®71
Warranty	1 year	1 year	1 year

BRADY® WHEN PERFORMANCE MATTERS MOST™

Safety and Traffic Control Signs

Brady is a global leader in facility signage, offering thousands of different signs for safety, maintenance and facility identification. Brady signs feature bright colors, bold text and intuitive pictographs to ensure that the communication is highly visible and easily understood.

Rigid Sign Materials

B-120 Premium Fiberglass
- Most durable, will not chip, fade, rust, shatter or peel for up to 25 years
- Graphics protected under fiberglass layer
- Excellent chemical & abrasion resistance
- Ideal for outdoor and harsh environments

B-347 BradyGlo™ Plastic
- Glow-in-the-dark (photoluminescent) plastic
- Withstands temperature variations (-40°F to 175°F (-40°C to 80°C)
- Ideal for escape or evacuations routes

B-401 Plastic
- Cost-effective durable polystyrene.
- Ideal for directional and informational applications
- Conforms to well-curved surfaces
- Up to 5 year outdoor life

B-555 Aluminum
- Durable for indoor & outdoor usage
- Withstands wind, rain, sunlight and high temperatures
- 5-8 year outdoor life
- Used for parking, building and informational signs

Flexible Signs (Adhesive Backed)

B-302 Self-Sticking Polyester
- Withstands temperature variations (up to 230F)
- Protected graphics holds up to repeated spills and cleanings
- Good for machine/equipment labels
- Permanent adhesive
- Up to 8 year outdoor life

B-324 BradyGlo™ Self-Sticking Polyester
- Glow-in-the-dark (photoluminescent) pressure sensitive polyester
- Charge time of 5 minutes will charge the sign for +10 hours of glow time.
- Ideal for exit and directional signs throughout escape or evacuations routes

B-946 Self-Sticking Durable Vinyl
- High gloss vinyl printed with UV resistant inks
- Permanent cold temp acrylic adhesive
- Good for outdoor applications on curved sufaces
- Fair chemical and abrasion resistance
- Durable, provides up to 10 years outdoor life.

Create your own custom safety and traffic signs online!

Brady's custom sign applications make it easy to design and order signs to your exact specifications. Pre-formatted templates and drop-down menus simplify the design process, allowing you to create signs in just seconds!

- 8 sizes; up to 24" x 36"
- 5 materials; including fiberglass, aluminum and self-sticking polyester
- OSHA- or ANSI- compatible formats
- Sign headers in multiple languages
- Hundreds of symbols and pictograms

Start creating your custom signs at www.BradyID.com/customsigns!

Street Sign 4-Way Cross Piece

- Mount on top of another street sign for additional sign

Catalog #	Description
56681	4-Way Cross Piece

Galvanized Posts

- Galvanized steel posts are manufactured of a high tensile steel and finished with uniform coatings of zinc and clear acrylic to resist corrosion
- Posts have 7/6" diameter holes on 1" centers that run the full length of the post on all four sides.

Catalog #	Description	Size
78998	Square Post	14 gauge, 2" x 2" tube size, 8' Length

U-Channel Sign Posts

- Baked green enamel finish on hot-rolled, high-tensile strength steel
- Weight: two pounds per linear foot
- 3⁄8" holes, 1" on center
- Hardware sold separately below

Catalog #	Description	Size
95047	U-Channel Sign Post	6'
97204	U-Channel Sign Post	8'
97205	U-Channel Sign Post	10'
97206	U-Channel Sign Post	12'
87982	Post Driver	-

Closed Profile

Open Profile

Tuff-N-Light U-Channel Post

- Ideal for traffic and industrial signage
- Closed profile posts are 6 times torsionally stronger than steel posts
- Open profile for up to 12"x18" signs

Catalog #	Description	Size	Color
97208	Closed profile	8'	White
97210	Closed profile	8'	Green
97207	Open profile	8'	White
97209	Open profile	8'	Green

Movable Sign Posts

- 35 pound cast iron base with 1-1/2" diameter post
- Post is pre-drilled for signs that are 18"x18", 24"x18", or 24"x24"

Catalog #	Description
86336	14" iron sign base and 48" post kit black
86345	17" iron sign base and 48" post kit black

Sign Base

- Securely mounts with three expansion bolts and accepts U-channel Posts
- Cast aluminum base is 15" in diameter and includes post mount stub and hardware

Catalog #	Description
86339	15" Diameter, Cast Aluminum

Mounting Tape

- Indoor/Outdoor B-156 double-faced foam tape
- Bonds well to rough, irregular surfaces
- Service range: 50°F to 180°F
- Roll mounted 1⁄16" thick foam tape

Catalog #	Description	Size
78273	Mounting Tape	3/4" x 36 yds.
19811	Mounting Tape	1" x 36 yds.

Vandal-Proof Tufnut™

- Plated steel nut secures tightly to prevent sign theft
- 5⁄16" nut for use with U-Channel Sign Posts (sold above)

Catalog #	Description
97211	2 Bolts, 2 Washers, 3 Tufnuts™

Fence Sign Support Brackets

- Easily attaches signs to fences
- Brackets are constructed of 14 gauge steel with a green baked enamel finish
- 17" bracket fits signs 18"x12" or 18"x18"

Catalog #	Description
86337	17" Bracket w/ hardware

BRADY WHEN PERFORMANCE MATTERS MOST™

ASME (ANSI) Standard A13.1-2007

The ASME (ANSI) Standard for pipe identification is a widely used guideline in determining pipe identification requirements. The purpose of the standard is to:

- "assist in identification of hazardous materials conveyed in piping systems and their hazards when released into the environment."

- "Pipes are defined as conduits for the transport of gases, liquids, semi-liquids or fine particulate dust."

Brady Pipe Marking Systems Meet the ASME (ANSI) A13.1-2007 Standard
The Brady Pipe Marking System instantly tells you all you need to know… pipe contents…direction of flow…whether hazardous or safe.

Brady Pipe Marking Systems Meet the ASME (ANSI) Size Recommendations
The A13.1-2007 standard also makes recommendations as to the size of letter height and length of color field for various pipe diameters. These recommendations are shown in the table.

Brady Pipe Marking Systems Meet ASME (ANSI) Color Recommendations
Unmarked pipes mean danger – to both life and property. Numerous injuries have occurred through ignorance of pipe contents, particularly when outside agencies are called in under emergency conditions.

Brady Pipe Marking Systems Meet the ASME (ANSI) A13.1-2007 Standard
Visibility "Markers shall be located so that they are readily visible to plant personnel from the point of normal approach." Brady Pipe Markers instantly tell you all you need to know about pipe contents, direction of flow and whether hazardous or safe.

Outside Diameter of Pipe or Covering	Length of Color Field	Size of Letters
3⁄4" to 1-1⁄4"	5"	1⁄2"
1-1⁄2" to 2"	8"	3⁄4"
21⁄2" to 6"	12"	1-1⁄4"
8" to 10"	24"	2-1⁄2"
Over 10"	32"	3-1⁄2"

NOTE: For pipes less than 3⁄4" in diameter, a permanently legible tag is recommended.

Pipe Classification	Color Scheme
Fire Quenching Fluids	White On Red
Toxic & Corrosive Fluids	Black On Orange
Flammable Fluids	Black On Yellow
Combustible Fluids	White On Brown
Potable, Cooling, Boiler Feed, and Other Water	White On Green
Compressed Air	White On Blue

NOTE: White on brown available upon request.

Brady Recommendations for Marker Placement:

Pipes shall be marked...
...adjacent to all valves and flanges.
...at both sides of floor or wall penetrations.
...adjacent to changes in directions.
...every 25' to 50' intervals on straight runs.
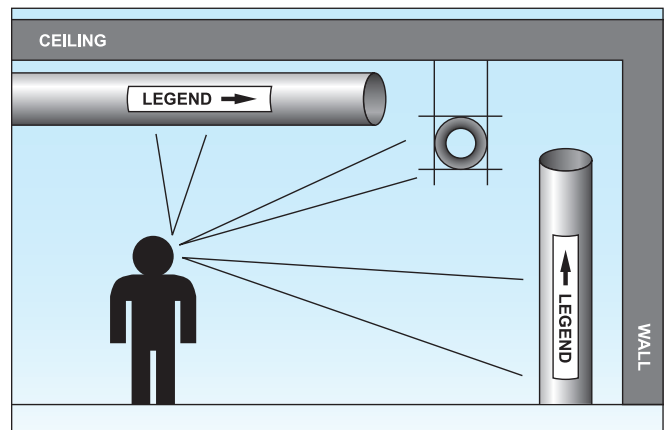

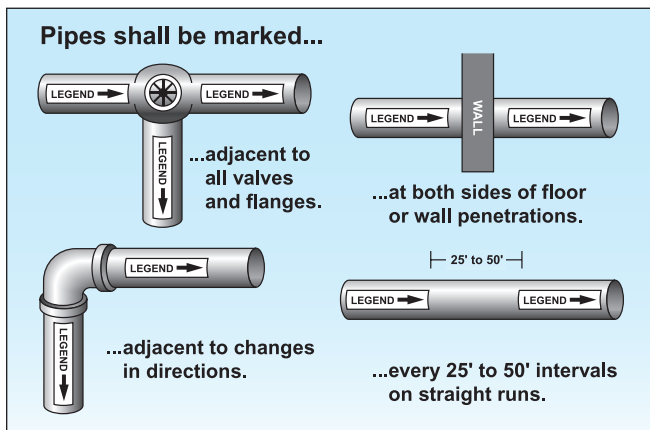

Pipe Markers

n/a = data not available NR = marker not recommended for environment listed Good = marker suitable for environment listed

Self-Sticking Pipe Markers
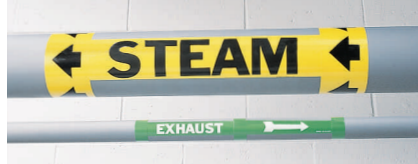

Self-Sticking Vinyl Pipe Markers
Factory applied industrial grade adhesives simplify marker installation. Simply peel the release coated paper backing from the marker and press the marker in place. Banding each end of the marker with Arrow Tape is recommended to indicate contents flow direction and to secure markers to the pipe.

- **B-946 Self-Sticking Vinyl**
  A premium indoor/outdoor grade self-sticking marker product.

Mechanically Applied Pipe Markers

BradySnap-On™ and Strap-On Vinyl
Unlike installing self-sticking markers, there's no need to clean pipe surfaces. Installation time is reduced. Markers are simply snapped, strapped or wrapped in place.

- **B-915 BradySnap-On™ and Strap-On Vinyl**
  A mechanically applied, surface printed vinyl pipe marker. Snap-ons are used for pipes less than 6" outside diameter. Strap-ons are designed for pipes from 6" and greater

High Performance Pipe Markers
Brady High Performance Markers are designed for use in harsh environments where there's significant exposure to sunlight, heat, and/or chemicals.

- **B-689 High Performance Polyester**
  PVF overlaminated polyester with sealed-in graphics. Markers are resistant to abrasion, chemicals, high humidity, and outdoor weathering. Supplied precoiled for easy wrap-around installation on pipes up to 7-7/8" in diameter

- **B-681/B-883 High Performance High Visibility**
  B-681 labels are factory applied to our B-883 FRP carrier. Directional arrows are applied by the installer. Markers are fastened to the pipe with Stainless Steel Strapping, sold separately

BRADY WHEN PERFORMANCE MATTERS MOST™

B-689 High Performance Markers

- PVF overlaminated polyester construction seals in and protects graphics
- Markers resist abrasion, chemicals, high humidity and outdoor weathering
- Pre-coiled for easy wrap-around installation on pipe up to 7-7/8" dia.

High Performance Pipe Markers Style and Size Chart

Style Code		Outside Dia.	Letter Height	Max Char.
Style: 0	VALVE →	1/2" to 1-3/8"	1/2"	22

! OSHA Federal Regulation 29 CFR 1910.261

"Pulp, Paper and Paperboard Mills" - This regulation applies to plants where pulp, paper and paperboard are converted.
"All chlorine, caustic and acid lines shall be marked for positive identification in accordance with ASME (ANSI) Standard A13.1.

B-946 Self-Sticking Vinyl Pipe Markers

- Markers meet the requirements of the ASME (ANSI) A13.1 Standard for the identification of piping system contents when used with Directional Flow Arrow Tape
- Durable B-946 material ideal for indoor and outdoor environments
- Supplied on a coated backing material that makes handling and installation easy
- Recommended to use Directional Flow Arrow Tape to indicate flow direction

BradySnap-On™ Pipe Markers

- Designed for general purpose pipe identification on pipes that have an outside diameter between ¾" and 6" (including insulation)
- May be applied to dirty, oily, greasy or rough surfaces
- Meet ASME (ANSI) Standard
- Lightweight coiled plastic can removed and reapplied

Strap-On Pipe Markers

- Designed for general purpose pipe identification on pipes that have a 6" or larger diameter (including insulation)
- May be applied to dirty, oily, greasy or rough surfaces
- Can be removed and reapplied in other areas
- Strap-On Pipe Marker styles F - H include nylon straps

How to order:
1. Choose the desired pipe marker legend below.
2. Replace the asterisk (*) with the style code (A, B, C, D, F, G or H) from the size charts below to indicate your desired pipe marker size and style. (Example: Air = 4001-H)

BradySnap-On™ Pipe Marker Style and Size Chart

Style Code		Outside Diameter	Letter Height
Style: A	VALVE →	3/4" to 1-3/8"	1/2"
Style: B	VALVE →	1-1/2" to 2-3/8"	3/4"
Style: C	VALVE →	2-1/2" to 3-7/8"	1-1/4"
Style: D	VALVE →	4" to 6"	1-1/4"

Strap-On Pipe Marker Style and Size Chart

Style Code		Outside Diameter	Letter Height
Style: F	AIR	6" to 7-7/8"	1-1/4"
Style: G	AIR	8" to 9-7/8"	2-1/2"
Style: H	AIR	10" to 15"	3-1/2"

Create Custom Pipe Markers Online

Brady's online pipe marker application makes it easy to design and order factory-made pipe markers to your exact specifications. Use of preformatted templates and drop-down menus simplifies the design process, allowing you to create pipe markers in just seconds. Once done, the custom pipe markers can be ordered online or emailed to your purchasing department or local Brady distributor.

Start creating custom pipe markers at www.BradyID.com or order custom pipe markers through your distributor with the following form.

Create your own pipe markers onsite and on-demand!

The special pipe marker module in MarkWare Lean Tools software makes it a snap to create pipe markers that conform to ASME, CAN/DBSB and other national standards. Output to a Brady label printer loaded with B-595 adhesive vinyl for the optimum in harsh environment durability! For stainless steel pipes, use B-569 low-halide polyester.

BRADY® WHEN PERFORMANCE MATTERS MOST™

Blank HPHV Carrier

- Ideal for marking custom markers on the spot
- Fiberglass carrier is blank (no label) and comes with two clips for installation
- Sized to accommodate the largest ASME (ANSI) equirements, 4.25" x 32"

Catalog #	Description
59918	Blank HPHV Carrier
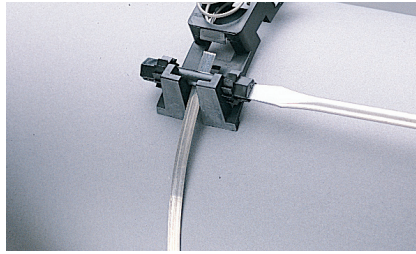

Stainless Steel Strapping

- Type 316 Stainless Steel Strapping is highly corrosion and heat resistant
- Ideal for HPHV pipe markers, HEET Tags or for your own purpose
- Continuous form requires separate stainless steel heads for uses other than HPHV pipe marker installation (sold separately)

Catalog #	Description
42331	1/4" x 100' steel strapping
42332	1/4" x 250' steel strapping
42333	1/4" x 1000' steel strapping
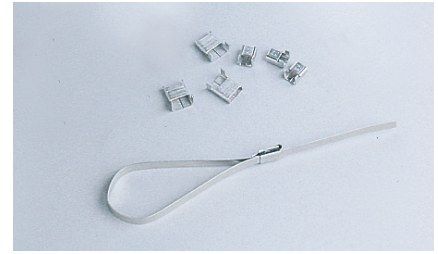

Stainless Steel Banding Heads

- Use with Continuous Strapping to create secure closures
- Stainless steel heads fit 1⁄4" strapping (sold separately)

Catalog #	Description	Qty.
90910	Type 316 Stainless Steel	100
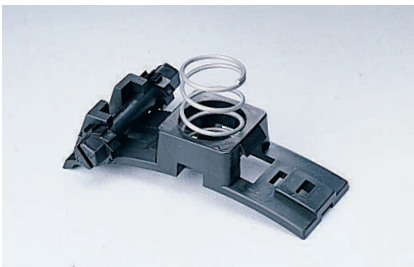

Heavy-Duty Mounting Clips

- For use with HPHV pipe markers

Catalog #	Description
42335	Heavy Duty Clip
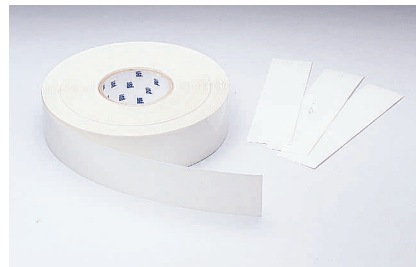

Tape Strip Rolls

- Use to re-secure wrap-around pipe markers should they become damaged need to be moved

Catalog #	Description
59945	2" x 10 yards Tape Strip Roll
59946	2" x 30 yards Tape Strip Roll

Bradylock™ Fastener

- Self-locking heavy duty plastic fastener for Strap-On Markers
- Excellent chemical resistance

Catalog #	Description
41772	1/2" x 150' Bradylock Fastener

Fastening Devices

- 32 mil stainless steel safety wire to be used with wire twister pliers.

Catalog #	Outside Dia.	Length
15424	Stainless Steel Safety Wire	1800 ft

Quik-Apply™ Nylon Straps

- Standard fastener for Quik-Apply™ pipe marker sizes Q1-Q4
- Can be used with a variety of tags including valve and lockout/tagouts

Catalog #	Outside Dia.	Strap Length
91165	1"	6"
91166	2"	7"

! Custom Valve Tags

Order Custom "High Visibility" Tags (B-418)

High Visibility tags allow you to display more detailed information than traditional stamped or engraved tags. In addition, the color-coded tag holders allow employees to distinguish between different types of valves or different processes at a glance and from a distance.

• Polyester label with overlaminate adhered to plastic tag holder. UV-resistant overlaminate also available for extended outdoor durability
• Durable, lightweight, non-corrosive and non-conductive
• Two sizes and 10 colors
• Bar code options include 3-of-9 and Code 128
• Service temperature: -40°F to 260°F (-40°C to 127°C)

Contact a Brady representative for more information.

Create Custom Tags Online

Brady's online valve tag application makes it easy to design and order factory-made valve tags to your exact specifications. Templates and drop-down menus simplifies the design process, allowing you to create valve tags in just seconds. Once complete, the custom valve tags can be added to your shopping cart and ordered online, or emailed to your purchasing department or local Brady distributor.

• Stamped or engraved tags available in square or round shapes and as 1.5" or 2.0"
• Material options include brass, stainless steel, plastic, aluminum or anodized aluminum
• Alphanumeric legends and serialized numbers

No setup charges and your order ships same or next day! Get started at www.BradyID.com.

Lockout / Tagout

www.BradyID.com/PetroChem

Cable lockouts – GREAT VERSATILITY!

• The advantage of using cable lockouts is that they can be used in a wide variety of applications

• Cable lockouts can be used to lockout multiple disconnects, valves, etc. with one lockout device

• They can also be used to secure unusual energy isolating devices that are difficult to lock out using conventional means.

• More portable and easier to use than chains, cable lockouts devices are a great addition to any lockout program.

All Purpose Cable Lockout

• Superior chemical, corrosion and temperature resistance properties

• Built-in cable loop keeps cable neatly coiled when stored

• Available with interchangeable sheathed metal (3/16" dia.) or non-conductive nylon (1/8" dia.) cables

• Max. service temperature of cables:
Non-Conductive Nylon: -40° to 200° F
Sheathed Metal: -30° to 180° F

Catalog #	Description
50943	Lockout w/ 8' sheathed metal cable
50941	Lockout w/ 8' non-conductive nylon cable
50944	Lockout without cable
50947	8' Sheathed metal cable only
50950	12' Sheathed metal cable only
50953	16' Sheathed metal cable only
50956	20' Sheathed metal cable only
50945	8' Non-conductive nylon cable only
50948	12' Non-conductive nylon cable only
50951	16' Non-conductive nylon cable only
50954	20' Non-conductive nylon cable only

Mini Cable Lockout

• Extremely compact and portable - Cable stored internally.

• Push-button self-winding mechanism automatically cinches cable tight

• Superior chemical, corrosion and temperature resistant properties.

• Comes with vinyl-coated steel cable or nonconductive nylon cable

• 6 lock holes accommodate most padlock shackles and hasps

• Body dimensions: 4" dia. x 1-3/4" deep Cable dimensions: 1/16" outside dia. x 8' length

Catalog #	Description
50940	Mini Cable Lockout w/ Steel Cable
51442	Mini Cable Lockout w/ Nylon Cable

Original Cable Lockout

• Brady's original cable lockout

• Body made of impact modified nylon, available in red, blue or yellow

• Comes with 6' galvanized steel cable (1/8" outside dia.)

Catalog #	Description	Color
65318	Cable Lockout Device w/ 6 ft. cable	Red

BRADY WHEN PERFORMANCE MATTERS MOST™

Valve Lockout

From universal valve lockouts to adjustable gate valve lockouts, Brady offers a full line of lockout devices to shut off all types of pressured valves. Gate valve lockout devices deny access and cover the valve handle to help you turn off, and keep off, a pressured situation. With Prinzing ball valve lockouts and Brady's standard, quarter-turn ball valve lockout devices, a comprehensive series of options are available from the global leader in lockout tagout solutions.

Universal Valve Lockout
Lock Out All Types Of Valves With A Single Device!

- Versatile, rugged, easy to use and lightweight device
- Made of industrial-grade steel and nylon for extra impact and chemical resistance
- Open-ended clamp fits over closed rings, wide handles
- Can also be used to lock out large levers, T-handles and other hard-to-secure mechanical devices

- Cable attachment offers choice of 1/8" nonconductive nylon or rustproof sheathed metal cable
- Small: for handle widths up to 1" (max handle thickness 0.6")
- Large: for handle widths up to 1.6" (max handle thickness 1.1")
- Patent No. 5,415,017 and 7,207,198

No need for multiple types and sizes of lockouts – now one device does it all!
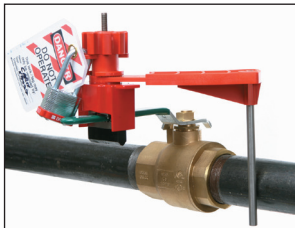

Use blocking arm to lock out quarter-turn ball valves.
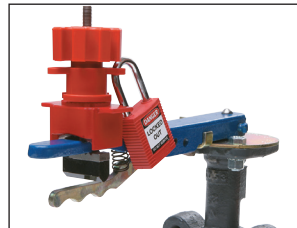

Attaches to butterfly handles, preventing trigger handle from being squeezed. Valve cannot be repositioned!

Use cable attachment to lock out gate valves.
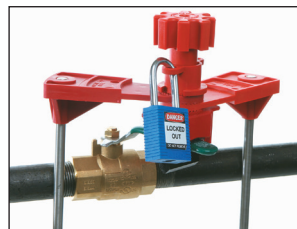

Use two blocking arms to lock out 3-, 4- or 5-way valves, or to lock valves in the "on", "off", or "throttled" position.

Plug Valve Lockout

- Secure manual plug valves to OSHA-compliant standards
- Four sizes to fit most 1" to 8" diameter manually-actuated plug valves
- Ideal for difficult-to-secure plug valves
- Durable and tamper-resistant
- Service temps from -25°F to 200°F
- Compact in size and easy to use

Catalog #	Description
113231	Lockout for up to 7⁄8" Stem Dia.
113232	Lockout for 15⁄16" to1-3⁄8" Stem Dia.
113233	Lockout for 1-3⁄4" to 2-1⁄8" Stem Dia.
113234	Lockout for 2-3⁄16" to 2-1⁄2" Stem Dia.

Adjustable Gate Valve Lockout

- Versatile lockout adjusts to fit 1" to 6-1/2" valve handles, replacing 3 conventional gate valve lockouts
- Durable polypropylene is resistant to temperature changes from - 13°F to 194°F
- Comes with danger labels in English, Spanish and French

Catalog #	Description
64057	Adjustable Gate Valve Lockout

Gate Valve Lockouts

- Made of rugged injection-molded polypropylene
- Service temps from –25°F to 200°F
- Unique knockout center fits OS&Y or "rising stem" valves
- Accepts shackles up to 3/8" in dia.
- Supplied with English, Spanish and French danger labels

65404	Cleats For 120/277V Lockout	6
65406	Cleats For 480/600V Lockout	6
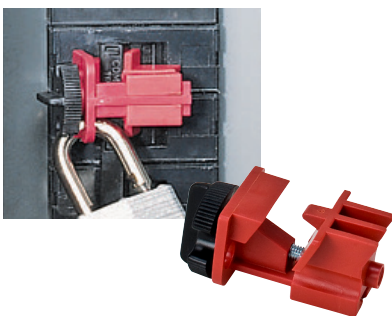

Universal Multi-Pole Breaker Lockout

- Single device works with most major multi-pole breakers that employ a tie-bar
- Made of durable impact-modified nylon
- Compatible with GE, ITE, Sylvania, Challenger, Bryant, Westinghouse, General Switch Co., and more!
- Use thumbscrew to clamp lockout securely over tie bar, then insert lock to prevent clamp from being loosened
- Patent No. 5,300,740

Catalog #	Description	Qty.
66321	Universal Multi-Pole Breaker Lockout	1
66320	Universal Multi-Pole Breaker Lockouts	6
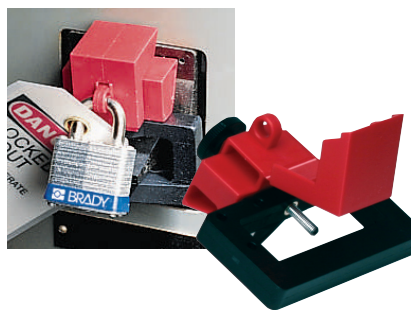

Oversized Clamp On Breaker Lockout

- Oversized 480/600V frame lockout fits breaker switches up to 21/4" wide and 7/8" thick
- Made of durable polypropylene and glass filled-impact-modified nylon
- New blade design gets better grip, works on even more breaker models!
- Patent No. 5,500,495

Catalog #	Description	Qty.
65329	Oversized Breaker Lockout	1
65321	Oversized Breaker Lockout	6
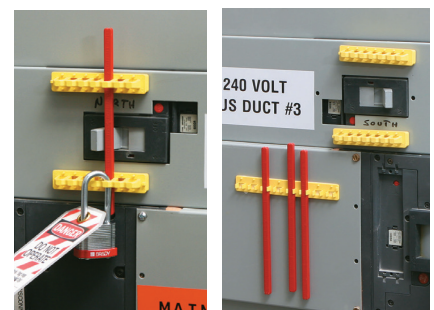

480-600V Breaker Blocker

- Perfect for locking out oversized and irregularly shaped switches
- Self-adhesive backed rails are permanently installed into an electrical panel – simply clean panel surface and adhere – no drilling required!
- Blocking Bars are 7-1/2" long
- Red blocking bar indicates locked off, green bar indicates locked on

Catalog #	Description	Qty.
90892	7.6" Red Blocking Bar	5

*Kit includes 2 yellow mounting rails, 1 red blocking bar, 1 green blocking bar and 3 alcohol wipes.

Lockout / Tagout

www.BradyID.com/PetroChem

EZ Panel Loc™ System

- Works on wide range of breakers, including single- and multi-pole configurations
- Can be used with most padlocks by making use of unique lock rail system
- Allows panel door to be closed even when lockouts are in place
- Accommodates multiple locks, facilitating group lockout activity without hasps
- Keeps weight off the breakers, protecting delicate electrical components from damage
- Positions locks and tags out side the panel, making sure lockout activity is clearly visible to anyone in the area
- Patent No. 6,727,441

(Not recommended for use with multilock hasps)

Technical Information

- Lockout devices constructed of high-impact Isoplast polymers
- Cables are 2-ft. in length
- Lock rails made of durable isoplast polymers with acrylic adhesive backing
- Lock rails available in 4" or 8" lengths (with 7 or 15 lock loops)

How EZ Panel Loc System Works

Lockout device is unlocked by inserting and turning the black plastic key.

1. Expose the super-bond adhesive on back of rail. Permanently affix to any location on the panel.
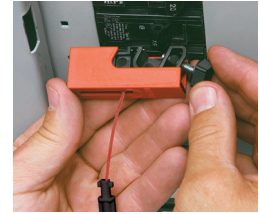

2. Attach the lockout device to the breaker and snap into locked position.

3. Pass plastic key through lock rail and attach lock, preventing key from sliding down cable and opening lockout device.
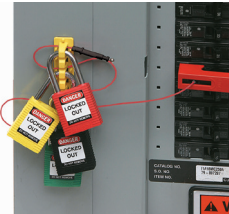

4. For group lockouts, run key through multiple loops in lock rail and apply locks. No hasps required! (Not recommended for use with multilock hasps)

5. Low-profile lockouts allow panel doors to be closed on most breaker panels.

Covers Most 120V – 277V Breakers!

The EZ Panel Loc™ System comes in two different styles, accommodating an exceptionally wide range of breaker models.

SNAP-ON

For use on Square D NQO and other breakers that have a hole in the switch tongue. Just align pins with hole and snap closed. Pins prevent switch from being thrown.
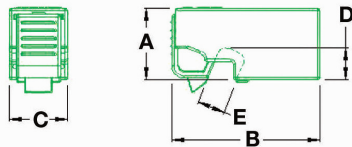

CLAMP-ON

For use on breakers that do not have a hole in the switch tongue. Turn thumbscrew to clamp lockout securely onto switch, then snap the cover closed to prevent thumbwheel from being loosened.

BRADY WHEN PERFORMANCE MATTERS MOST™

3-In-1 Electrical Plug Lockout

- Accommodates high and low-voltage plugs up to 3" in diameter and 5-1/2" in length
- 2 sliding top lids can be used individually or together to accommodate small, medium and large-diameter cords up to 1-1/4"
- Made of bright yellow thermoplastic
- Visual label supplied in English/Spanish bilingual format

Catalog #	Type
PLO23	3-in-1 Plug Lockout

Brady Electrical Plug Lockouts

- Plug lockouts prevent electrical plugs from being inserted into a wall outlet. Use when plug will not remain under the exclusive control of the person performing service or maintenance
- Made of rugged polypropylene
- Small 110V plug lockout: 2"H x 2"D x 3-1/2"W with 1/2" diameter hole for cable
- Large 220/500V plug lockout: 3-1/4"H x 3-1/4"D x 7"W with 1" diameter hole for cable

Catalog #	Type
65674	Small 110V Plugout
65675	Large 220/500V Plugout

Wall Switch Lockouts

- Use with most wall-mounted switches
- Easy to install using existing screws
- 65392 & 65696 come in a high visibility red color and can lock switch in "on" or "off" position
- WSLO feature a patented non-hinge design and are made of strong, clean polycarbonate

Catalog #	Description	Qty.
65392	Red Wall Switch Lockout	1
65696	Red Wall Switch Lockout	6

Padlock not included

PRINZING Gas Cylinder Lockout

- Prevents access to the main cylinder valve
- No need to match your lockout device to varying diameters and threads of cylinder caps
- Accommodates neck rings up to 3 1/2" diameter
- Installs in seconds to save time

Catalog #	Description
LM023E	Gas Cylinder Lockout

Pneumatic Quick-Disconnect Lockout

- Isolates pneumatic energy without the expense and inconvenience of installing in-line lockout valves
- Device is applied to the male fitting, isolating equipment from all compressed air sources
- Accommodates the majority of 1/4", 1/8", 1/2" male fittings
- Hole in center of device allows for permanent storage on an air hose and a loop on the side can be used to hang the hose and lockout device
- Lockout using a padlock with ¼" or 9/32" shackle

Catalog #	Description	Qty.
64221	Pneumatic Lockout	1
65645	Pneumatic Lockout	6

Snap Cap™ Gas Cylinder Lockout

- Designed to fit most North American high and low pressure gas cylinders
- Meets DOT standards
- Denies access to the main cylinder control and regulator attachment
- Welded steel construction and powder coated for many years of use

Catalog #	Description	Color
90496	6.5" x 3-1/8" x 11 UN, High Pressure Fine Thread	Yellow
95137	6.5" x 3-1/2" x 11 UN, Low Pressure Fine Thread	Yellow
95138	6.5" x 3-1/8" x 11 UN, High Pressure Coarse Thread	Yellow
95139	6.5" x 3-1/2" x 11 UN, Low Pressure Coarse Thread	Yellow

Lockout / Tagout

www.BradyID.com/PetroChem

! OSHA Lockout/Tagout Regulations

1910.147(c)(5) OSHA Lockout Device Requirements state that lockout devices must:

Tagout devices must:

- Be provided by the employer

- Be standardized by size, shape or color

- Be distinguishable from locks used for other purposes. Lockout locks should only be used for lockout!

- Identify the individual who applied the lock (both tags and lock labels are acceptable for this purpose)

- Be capable of withstanding the usage environment and must be strong enough to prevent removal except by using excessive force with special tools, such as bolt cutters.

- Most importantly, whenever lockout devices are applied, they must remain under the exclusive control of the individual who attached them. No employee should be able to open a lock attached by someone else.

Keying & Charting Options

Keyed Different

- Brady padlocks come "keyed different" when purchased from stock. This means that the key for one lock should not open another. Brady padlocks use 5- or 6-pin cylinders. Moreover, both cylinders and keys are precision-machined to exacting standards. This enables us to offer a greater number of unique keys than other locks with the same number of pins, making it highly unlikely that you will ever receive a duplicate lock.

- To guarantee that each lock is different, we can chart your locks, ensuring that each Brady padlock you receive is different from the others (see below).
Keyed Alike

- When keyed alike, all locks in a set can be opened with the same key. This option is beneficial when multiple locks are assigned to a single employee. Remember, however, that under OSHA regulations no employee should be able to open a lock applied by someone else. Therefore, keyed alike locks from the same set should never be distributed to multiple employees.
Master Keyed

- A master key can be used to open multiple locks that are keyed differently. This allows supervisors to easily remove a lock in the event of an emergency. In order for employees to retain exclusive control, master keys should be kept in a secure location that is accessible only to management.

Key Charting

- Brady can track or "chart" your key codes upon request in order to simplify ordering replacement locks and to avoid duplicates when ordering additional locks. There is no extra charge for charting. Call for Customer Service at 1-888-272-3946 details!

Choose the lock that's best suited for your job!

Key Retaining Steel Padlocks

- Reinforced laminated steel withstands severe physical abuse
- Hardened steel shackle resists tampering, cutting, prying, and rusting
- Body plates individually coated for superior rust protection, offering 13 times better corrosion resistance than normal steel locks
- 5- pin cylinder offers more unique key cuts and increased tamper resistance
- Three shackle sizes: 3/4", 2" or 3" Shackle diameter: 17/64" Lock Body: 1-1/5"H x 1-5/16"W x 1"D
- Colored bumpers supplied for identification and protection (custom stamping available)
- Made from recycled material
- Key retaining safety feature prevents key from being removed until closed
- Lighter weight than standard Laminated Steel Padlocks
- Each padlock includes 1 key. Custom keying and charting also available. Lock labels sold separately.

Aluminum Padlocks

- Lightweight yet rugged with solid aluminum body and shackle - lightest-weight aluminum lock in the market and made from recycled material
- 6-pin cylinder offers more unique key changes, better tamper resistance
- Reserved paracentric keyway provides optimal security (prevents someone from getting a copy made at a local key shop)
- FDA approved lubricant in cylinder
- Anodized aluminum finish gives better fade resistance when used outdoors
- Key retaining safety feature prevents key from being removed until closed
- Aluminum shackle has superior spark and corrosion resistance
- Two shackle sizes: 1" and 1-1/2", shackle diameter: 1/4"
  Lock body: 1-3/5"H x 1-1/2"W x 3/4"D
- Each padlock includes 2 keys. Custom keying and charting also available. Lock labels sold separately.

BRADY WHEN PERFORMANCE MATTERS MOST™

Standard Lockout Tags

Communicate safety and lockout information at the point of need with Brady's wide selection of OSHA-compliant Lockout/Tagout tags. Brady's Lockout Tags come in a variety of materials and legends to suit your application needs.

Available Tag Materials:

Heavy Duty Polyester (B-837)
- Durable polyester laminate completely encapsulates and protects graphics
- Withstands moisture, grease, chemicals, and extreme temperatures
- Accepts pencil, pen and marker. Pen and marker can be completely erased using isopropyl alcohol
- Heavy duty construction withstands up to 80 lbs of pull force
- 3/8" dia. heavy-duty brass grommet
- Includes OSHA-compliant nylon fasteners

Economy Polyester (B-851)
- Rigid polyester surface is easy to write on and stays legible longer than cardstock
- Exceeds OSHA 50 lb. pull requirement for tagout devices
- 3/8" dia. rolled brass eyelet accepts most padlock shackles
- Includes OSHA-compliant nylon fasteners

Cardstock (B-853)
- Cost-effective tags designed for one-time use
- Does NOT meet OSHA 50 lb. pull test for tagout devices, but can be used in conjunction with locks (see OSHA Tag Requirements above)
- 3/8" dia. rolled brass eyelet accepts most padlock shackles
- Includes attachment strings

Portable Metal Group Lockout Boxes

- Made of heavy duty steel, powder-coated for extra rust resistance
- 12 lock holes on lid, plus one lockable clasp on front
- Standard lock box: 6"H x 9"W x 3-1/2"D
  When used for storage, holds up to 40 padlocks
- Extra –large lock box:
  6"H x 7-3/8"W x 9-1/2"D
- When used for storage, holds up to 75 padlocks

Catalog #	Description	Size
65699	Red - Standard	6"H x 9"W x 3-1/2"D
51171	Red - XL	6"H x 7-3/8"W x 9-1/2"D

* Padlocks sold separately.

Combined Lock Storage / Group Lockout Box

- Handy box features a lockable storage compartment and a group lockout compartment.
- Made of heavy duty steel, powder coated for extra rust resistance
- Lockout compartment has clear window with keyhole slot
- Standard box: 12-1/2"L x 7-1/2"W x 6"D
  Compartment: 8-1/2"L x 6"W x 6"D
  Compartment holds approx. 50 locks
  17 lock holes in group lock box lid
- Large box: 15"L x 101/2"W x 9"D
  Compartment: 10-1/2"L x 9"W x 9"D
  Compartment holds approx. 125 locks
  34 padlock holes in group lock box lid

Catalog #	Description	Size

! Hazard Communication OSHA Standards and GHS (Globally Harmonized System) Compliance

The Occupational Safety and Health Administration (OSHA) Federal Hazard Communication Standard 29 CFR 1910.1200 has become known as the "Right-To-Know" law. This standard gives both employers and employees a right-to-know about the hazardous chemicals they use in the workplace. It is designed to reduce the incidence of chemical source injury and illness in the workplace. In order to accomplish this, employers are required to:

1. Have Safety Data Sheets (SDS) on file for every hazardous chemical in the workplace available to all employees during their work shift.

2. Train employees about the potential hazards, how to identify and safely work with hazardous chemicals and the proper personal protection necessary when working with hazardous chemicals. Employees must be trained before they start a work assignment.

3. Identify and list all of the hazardous chemicals in the workplace.

4. Have a written hazard communication program available for employees, OSHA and outside contractors who enter the workplace.

5. Have labels on all hazardous chemical containers that:
   - List the name and address of the manufacturer
   - List the chemical name
   - List the hazardous and pre-cautionary statements that exist
   - Show applicable health or chemical pictograms
   - Are easily related to the appropriate SDS on file

6. Maintain reports, records and logs for the entire program.

7. Certain states require that you report all of this information to a state agency, department of labor, health department or fire department depending on the state law in effect.

Hard work is necessary to come into compliance with the law. Brady offers a wide variety of products to keep your work to a minimum, while enabling you to implement a complete program that will bring your company into compliance with the Hazard Communication Standard.

GHS (Globally Harmonized System) Compliance

GHS is an acronym for the The Globally Harmonized System of Classification and Labelling of Chemicals. The GHS standard is an international standard created by the United Nations for the purpose of classifying and labellling hazardous chemicals. A majority of countries globally have adopted and are enforcing most elements of the GHS with their regulatory agencies having jurisdiction for this public safety concern.

GHS Status in the U.S.
OSHA published an updated Hazard Communications standard in 2012 that incorporates the major elements of the GHS. A 3 year transitional period allows companies' time to fully implement the new standards in their facilities.

GHS Status around the World
The European Union is already well along the path to full implementation of GHS (referred to as CLP, Classification for Labelling & Packaging, by the EU), and countries in Asia are quickly following in its footsteps.

GHS Workshops Available!
Brady's 3-day GHS Workshops engage participants to visually transform a focus area from current hazcomm labeling into a GHS-compliant area. During these workshops, Brady compliance experts will lead your employees through:

- GHS regulations and pictograms education
- Defining and creating labels using the new standard
- Training on new label requirements and SDS format

Custom GHS Labels Available

All organizations that ship, receive, handle, and maintain potentially hazardous chemicals are impacted by the GHS standard.

- Create your own GHS-compliant labels through your MarkWare™ software on printers such as the Globalmark®2 Industrial Printer and the BBP®31 Sign & Label Printer.

- Brady will also create and print custom GHS labels to your specific labeling requirements:
  - Create labels in English, Spanish, French and more
  - Available in a variety of sizes to fit your needs
  - Contact us at: 1-888-250-3082

BRADY WHEN PERFORMANCE MATTERS MOST™

Pre-Printed GHS Labels

Pre-printed die cut labels identify hazardous products for chemical risks, health risks and environmental risks in accordance to the United Nations' universal approach to classifying and communicating chemical hazards.

NEW!

GHS Explosive
- Explosives, self-reactives, organic peroxides

GHS Flammable
- Flammable gases, liquids, and solids; pyrophorics; self-reactives; self-heating

GHS Oxidizing
- Oxidizers, organic peroxides

DOT Placard Signs

Brady also offers placards signs that meet DOT 49CFR Part 172 requirements. These placards are available in a variety of materials and legends.

See page 12 or visit www.BradyID.com to view all placard signs.

BRADY. WHEN PERFORMANCE MATTERS MOST™
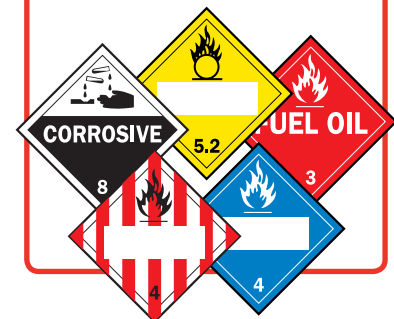

Custom GHS Chemical Labels

Create your own GHS-compliant secondary container labels using Markware™ software and the GlobalMark® label printer. Or Brady can also create custom-printed GHS labels to meet your specific requirements:

• Create labels in English, Spanish, French and more

• Available in a variety of sizes

**To order: use the form on page 48 or contact a Brady representative.**

! MarkWare™ Software now includes a GHS / CLP Label Module

• 18 pre-formatted label layouts and approved GHS symbols are built-in

• User selects approved pre-worded hazard statements and GHS symbols which then automatically populates into layout – no need to type everything in

• Prompts for additional variable data which then auto-populates into layout

• Choose a second language and MarkWare auto-populates in the second language

• Contains templates for Globalmark®, BBP®31 and BBP®33 Label Printers

Catalog #	Descripion

GHS and NFPA Format

Custom Tank and Vessel Signs

Brady can also create custom tank and vessel signs to meet your specifications. These signs can be formatted to conform to NFPA or GHS standards. Brady also offers a version that includes both NFPA ratings and GHS pictograms with hazard statements. In addition to physical and health hazards, the signs can also show tank ID information, target organ warnings, PPE requirements, emergency response instructions and storage/mixing guidelines.

Choose from:

• Two sizes: 10" x 14" or 14" x 20"

• Three materials: fiberglass, self-sticking vinyl, or BradyTuff plastic

To order: use the form on page 49 or contact a Brady representative.

! Chemical Signs Also Available

Brady offers a variety of chemical signs that can be used to identify your plant's chemical storage and hazardous materials areas. Chemical signs and hazardous material signs are available in a variety of sizes and materials, including photoluminescent and glow-in-the-dark.

View the hazardous chemical signs on page 12 or visit **www.BradyID.com.**

Custom GHS Label Form

When ordering a Custom GHS Label from Brady, please have a Safety Data Sheet (SDS) in hand to fill in the form. The SDS, supplied from your chemical manufacturer must be up-to-date with GHS elements. All required label elements that are needed to fill this form out are found in sections 1-3 in your chemical SDS. (Once label has been created a proof is required.)
Once complete, return this form to BradyUSAQuotes@BradyCorp.com or fax to 1-800-292-2289.

LadderTags™

LADDERTAG™ is a complete ladder safety management system. Regulations require ladders to be checked for damage, faults and wear before use by an authorized user, and may assist with the requirements of CFR 1926.1053 (a) (12), (b) (17) (i) (ii) and CFR 1910.25 (d) (1) (X)

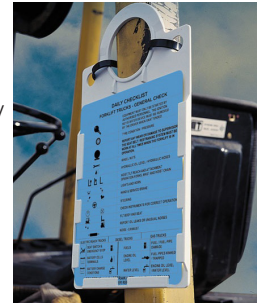

Catalog #	Description	Size	Color	Qty.
LAD-EITH12	Holders	2-1/4" x 8-1/4"	White	10/box
LAD-EITL521	Inserts	2" x 6-1/2"	Yellow	100/pkg
LAD-EITH/L12	Kit*	-	White	1 kit

*Kit includes 10 holders, 10 inserts and 1 pen

Micro Tag

A safety system which is particularly useful for identifying small plant, equipment, lifting gear and safety harnesses. Color coded and date qualified, the system also has the facility to render equipment in a 'prohibition status' should it be found to be faulty between inspection dates. Meets the requirements for OSHA CFR 1926.502 (d) (21) Personal Fall Arrest systems.

Catalog #	Description	Size	Color	Qty.
MIC-MTIGPI G	Next Inspection Date Due	1-7/8" x 1-1/4"	Green	100
MIC-MTIGPI R	Next Inspection Date Due	1-7/8" x 1-1/4"	Red	100
MIC-MTIGPI Y	Next Inspection Date Due	1-7/8" x 1-1/4"	Yellow	100
MIC-MTHSTD04	Microtag Kit*			1

*Kit includes 20 holders, 40 cables ties and 1 pen

Forklift™ Tag

Assists with the requirements of 1910.178 (q) (7) pre use preventative maintenance and safety inspection for forklift trucks. The FORKLIFT™ holder is permanently attached to the cage of the forklift truck and displays the prohibition sign and the script "DO NOT USE". The FORKLIFT™ insert shows in written and graphic format the daily or pre-shift, inspections be carried out by the first user.

Catalog #	Description	Size	Color	Qty.
FLT-ETSH9	Forklift Holder	11-1/2" x 6"	White	10
FLT-ETSI51	Forklift Inserts	5-3/4" x 7-5/8"	Blue/Yellow	100
FLT-ETSH9A	Forklift Kit*			1

*Kit includes 10 holders, 10 status inserts and 1 pen

MultiTag®

Assists with the identification and preventative maintenance requirements of a range of equipment, and may assist with the requirements of CFR 1926.1053 (a) (12), (b) (17) (i) (ii) and CFR 1910.25 (d) (1) (X) US Patent # 314,016

Catalog #	Description	Size	Color	Qty.
MUL-EITHUSA01	Multitag Holder	2-1/4" x 8-1/4"	White	10
MUL-EITL535	Multitag Inserts	2" x 6-1/2"	Green	100
MUL-EITHUSA01A	Multitag Kit			1

*Kit includes 10 holders, 10 inserts and 1 pen

Confined Space EntryTag®

Works in conjunction with existing permit to work systems and assist with the requirements of CFR 1910.146 (c) (2), (d) (11) and (f) (2). ENTRYTAG® is a visual reminder to authorized personnel and assists in instructing non authorized personnel of the critical requirements contained within the permit to work. The system clearly states the minimum requirements of entry to the confined space or whether the area is in prohibition and cannot be entered.

Catalog #	Description	Size	Color	Qty.
ENT-ETSH157	Entrytag Holder	11-1/4" x 6"	White	10
ENT-ETSI532	Standard Inserts	5-3/4" x 7-5/8"	Green	100

ENT-ETSH157A	Entry Tag Kit*			1

*Kit includes 10 holders, 20 status inserts and 1 pen

BRADY WHEN PERFORMANCE MATTERS MOST™

Absorbent Spill Kits

Accidents do happen, so it's better to be prepared. Brady offers a complete selection of SPC spill kits in a variety of types and sizes to equip you with everything you need to clean-up accidents when they happen. Quickly and easily clean-up spills of oils, solvents, coolants and other fluids. They are ideal for fast response to critical accidents.

Economy Spill Kit

- Highly visible yellow PVC bag for small spills; the right price, the right size and the right value
- Absorbs up to 5 gallons per kit
- Dimensions: 20"L X 16"W X 4"H
- Contents:
  - 10 pads (15" x 19")
  - 2 SOCs (3" x 4')
  - 1 disposal bag
  - 1 pair nitrile gloves
  - 1 instruction sheet

Catalog #	Type	Qty.
SKA-PP	Universal	1
SKA-PP-TAA	Universal	1
SKH-PP	Chemical	1
SKO-PP	Oil Only	1
SKR-PP	Re-Form	1

*Hanging rack sold separately.

Attack Pac Spill Kit

- Space saving, single use kit, packed in puncture and UV resistant foil bag (includes grommet for hanging)
- Absorbs up to 7 gallons per kit
- Dimensions: 20"L X 16"W X 4"H
- Contents:
  - 15 pads (15" x 19")
  - 3 SOCs (3" x 4')
  - 1 disposal bag
  - 1 pair goggles
  - 1 pair nitrile gloves
  - 1 instruction sheet

20-Gallon Lab Pack

- UN-approved water and chemical resistant container with screw top lid for small-medium response
- Absorbs up to 17 gallons per kit
- Dimensions: 21"Dia. X 18"H
- Contents:
  - 12 pads (15" x 19")
  - 3 SOCs (3" x 12')
  - 2 pillows (18" x 18")
  - 3 disposal bags
  - 1 pair goggles
  - 1 pair nitrile gloves
  - Emergency Response Guidebook

Absorbents

Universal Absorbency Pads and Rolls

Use these all-purpose absorbents to clean-up oils, coolants, solvents and water-based fluids anywhere in your facility. Around machinery, under leaky pipes or fittings, in messy traffic areas, for general maintenance projects – they are your first choice for indoor spill control. Plus, their gray color masks spills and stains – helping you resist the urge to pick up the absorbent before it is fully saturated.

? **Common Liquids Absorbed:**
- Coolants & Solvents
- Gasoline & Oil
- Latex paint
- And other water-based fluids

UXT - "Xtra Tough"

- Extra tough absorbents are abrasion resistant and non-abrasive
- Universal Meltblown Polypropylene core
- 3-ply (SMS) construction with spunbond coverstock on both sides

Catalog #	Type	Size	Qty.

Chemical Absorbency Pads and Rolls

Alert your employees to the presence of hazardous fluids with green and yellow chemical absorbents from SPC. These surfactant-treated polypropylene pads and rolls can be used on a wide range of chemicals, including hydrofluoric acid and are chemically inert, so they will not react with aggressive fluids.

? **Common Liquids Absorbed:**
- Acids and bases
- Aggressive chemicals
- Oils
- Solvents
- Citric acid
- Water-based fluids
- Sodium hydroxide
- And other unknown chemicals

CH - "Chemical" Absorbents

- Dimpled, yellow absorbent offers high visibility for your hazardous chemical applications
- Meltblown Polypropylene
- Economical single-ply absorbent made with MAXX® technology - improving adsorption and strength

Catalog #	Type	Size	Qty.

BRADY WHEN PERFORMANCE MATTERS MOST™

Oil Only Absorbency Pads and Rolls

Specialized for oil and other petroleum-based spills, oil only pads and rolls will not absorb water and will float indefinitely. These absorbents are unaffected by temperature and impervious to rot and mildew. Ideal for outside use, Brady's oil only SPC products are equally effective in soaking up petroleum-based solvents and paints, vegetable oils and other non-water soluble oil-based fluids.

? Common Liquids Absorbed:

- Cutting fluids
- Hydraulic and brake fluids
- Engine oils
- Lubricants
- Cooking oils
- Gasoline and diesel
- Oil based paints and solvents
- And other oil-based fluids

SXT® Oil Absorbents

- A dimpled and perforated absorbent with spunbond coverstock on both sides for durability with very low linting.
- 3-ply (SMS) construction and Oil Only Meltblown Polypropylene

Re-Form™ Oil Only Absorbents

- Repels water and floats making it ideal for outdoor applications.
- Absorbs more than 34 times its weight in liquid
- 40% higher absorption ratio than the next leading absorbent
- Spunbond coverstock on both sides adds durability and reduces linting
- Made from 80% all natural cotton fibers
- Supports corporate sustainability and LEED initiatives

Re-Form™ Absorbents are not intended for use with highly aggressive chemicals.

Mat & Rug Absorbents

Absorbent mats and rugs keep aisles and walkways slip-free by absorbing and containing oils, liquids or other spills. They are constructed from durable, needle punched, polypropylene fibers. Compared to an entrance mat, absorbent mats and rugs offer better traction, reduce slipperiness and keep liquids from being tracked from one area to the next.

? Common Liquids Absorbed:

- Bases & Oils
- Chemicals
- Solvents
- Water-based fluids

TrackMat Matting

- Extremely durable 3-ply construction features UV-resistant top layer
- Ideal for outdoor use, heavy foot or vehicle traffic
- Highly absorbent polypropylene core
- Non-slip and non-leak barrier backing

The Brady Advantage

Visual Solutions For Harsh & Hazardous Environments

Brady, a world leader in industrial identification, offers facility, process and equipment identification solutions for use in harsh applications and hazardous environments. Whether the need is for sun (UV), water, chemical or abrasion resistance, or all of the above, we have the solution to meet your needs!

In addition to boasting a large stock offering of safety signs, warning labels, pipemarkers, maintenance tags and other workplace visuals, we also excel at addressing custom needs. Create your own customized visuals, onsite and on-demand with Brady's sign and labeling systems or let Brady print customized visuals for you. Whatever your industrial identification needs, Brady has you covered!
