

## nRF24L01+ Evaluation Kit

### Evaluation Kit for nRF24L01+ 2.4GHz RF transceiver IC

#### DESCRIPTION

The nRF24L01+ Evaluation Kit is a stand-alone kit for evaluation, prototyping and applications development with the nRF24L01+ 2.4GHz RF transceiver IC. It includes basic feature boards, nRF24L01+ radio modules, microcontroller modules and PC software for configuration and control.

#### FEATURES

- Stand-alone kit for evaluation, prototyping and development with the nRF24L01+ 2.4GHz RF transceiver IC
- nRF24L01+EC PC software for configuration and control

#### CONTENT

- 2x Basic Feature Boards
- 2x nRF24L01+ radio modules with PCB antennas
- 1x nRF24L01+ radio modules with SMA connector
- 2x microcontroller modules
- CD with software and documentation
