Product data sheet

Automation Technology

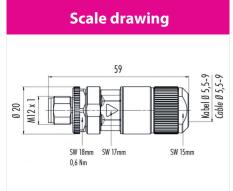

Product description Contacts: 8, cable outlet: 5.5 - 9 mm, cable plug connector with X-coding, shieldable, CAT 6A, insulation displacement

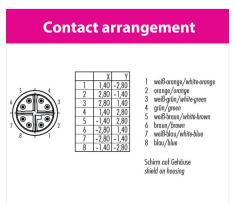

connection

Area M12-D, M12-X Series 825 X-coding

Order number 99 3787 810 08

You can find the component part drawing and assembly instructions on the next page.

Technical data

General values

Connector design Connector locking system Termination Wire gauge (AWG) Cable outlet Upper limit temperature Lower limit temperature cable connector bolted cutting clamps 27-22 5,5 - 9,0 mm 85 °C -40 °C

Electrical values

Rated voltage 50V AC, 60V DC V Rated impulse voltage 800 V Pollution degree 3 Overvoltage category П Insulating material group Rated current (40 °C) 0,5 A Volume resistivity $\leq 10 \text{ m}\Omega$ shieldable EMC compliance Degree of protection IP67 > 100 Mating cycles Mechanical operation

Material

Contact material CuSn (bronze)
Contact plating Au (gold)
Contact body material PA

Sicherheitshinweise

The connectors are designed for use in plant, control system and electrical equipment. The end user is responsible for checking whether the connectors are suitable for use in other applications.

Connectors used in electrical circuits containing hazardous life parts must only be assembled and used by or under the supervision of persons with the requisite electrotechnical training, taking the applicable regulations and standards into account.

Connectors with degree of protection IP 67 and IP 68 are not suitable for use under water. When used outdoors, the connectors must be separately protected against corrosion. For further information about IP degrees of protection refer to 'Technical support' in the Download Centre.

To lock the cable connector to the equipment connector, the threaded ring is tightened until it is 'finger-tight' (approx. 50 cNm).
