CLEAR ENCLOSURE FOR RASPBERRY PI3 B+, PI 3, 2 & B+

This transparent enclosure for the Raspberry Pi combines great looks and great features that anyone can afford. It is an economical enclosure for your Raspberry Pi which is made of strong, transparent polycarbonate material to keep your Pi safe and looking good. Your Pi snaps securely in place without the use of any tools. All ports can be easily accessed and there's even a GPIO cable pass-through for prototyping. The tool-less design also has provisions for the Raspberry Pi Camera which also snaps right into place and safely protected.
