Rapid And Reliable USB Device Charging While On The Move

Looking for a reliable but powerful in-vehicle USB charger for your latest mobile devices?

The new **LMS01A-2U-2A-INS-B** is a compact dual-USB port charger designed to work with almost any standard 12-volt socket in the car, commercial vehicle or almost any other 12-volt input.

Unlike other USB chargers, this unit has dual integral USB charge ports including a higher capacity 2.1AMP charger needed for iPad(tm) and other higher powered devices. Both USB ports can be used simultaneously.

Compatibility for almost all popular smartphone, tablets, e-books, dash-cameras and other USB devices\* too numerous to mention, the LMS01A-2U-2A-INS-B is your ideal travelling companion.

## specifications:

Dual USB charge ports - 2.1amp & 1amp ports
