### DATASHEET - DE11-129D6FN-N20N

Speed starters, single-phase power supply connection, three-phase motor connection at 230 V, 9, 6 A and 2, 2 kW / 0, 3 HP, with integrated EMC filter

Part no. Catalog No. Eaton Catalog No.

DE11-129D6FN-N20N 180655 0. DE11-129D6FN-N20N

#### Technical data General

| General                                       |                  |     |  |
|---|------------------|-----|--|
| Standards                                     |                  |     | Specification for general requirements: IEC/EN 61800-2<br>EMC requirements: IEC/EN 61800-3<br>Safety requirements: IEC/EN 61800-5-1  |
| Certifications                                |                  |     | CE, UL, cUL, RCM   |
| Production quality                            |                  |     | RoHS, ISO 9001   |
| Climatic proofing                             | ρ <sub>w</sub>   | %   | < 95%, average relative humidity (RH), non-condensing, non-corrosive   |
| Ambient temperature                           |                  |     |  |
| operation (150 % overload)                    | 9                | °C  | -10 - +60  |
| Storage                                       | 9                | °C  | -40 - +70  |
| Radio interference level                      |                  |     |  |
| Radio interference class (EMC)                |                  |     | C1 (for conducted emissions only), C2, C3, depending on the motor cable length, the connected load, and ambient conditions. External radio interference suppression filters (optional) may be necessary. |
| Environment (EMC)                             |                  |     | 1st and 2nd environments as per EN 61800-3   |
| maximum motor cable length                    | I                | m   | $\begin{array}{l} C1 \leq 5 \text{ m} \\ C2 \leq 10 \text{ m} \\ C3 \leq 25 \text{ m} \end{array}$   |
| Mechanical shock resistance                   |                  | g   | 15 (11 m/s, EN 60068-2-27)   |
| Vibration                                     |                  |     | EN 61800-5-1   |
| Altitude                                      |                  | m   | 0 - 1000 m above sea level<br>Above 1000 m: 1% derating for every 100 m<br>max. 2000 m   |
| Degree of Protection                          |                  |     | IP20/NEMA 0  |
| Protection against direct contact             |                  |     | BGV A3 (VBG4, finger- and back-of-hand proof)  |
| Main circuit                                  |                  |     |  |
| Supply  |                  |     |  |
| Rated operational voltage                     | U <sub>e</sub>   |     | 230 V AC, 1-phase<br>240 V AC, single-phase  |
| Mains voltage (50/60Hz)                       | U <sub>LN</sub>  | V   | 200 (-10%) - 240 (+10%)  |
| Input current (150% overload)                 | I <sub>LN</sub>  | А   | 23.2   |
| Supply frequency                              | f <sub>LN</sub>  | Hz  | 50/60  |
| Frequency range                               | f <sub>LN</sub>  | Hz  | 45 - 66  |
| Mains switch-on frequency                     |                  |     | Maximum of one time every 30 seconds   |
| Power section                                 |                  |     |  |
| Overload current (150% overload)              | ΙL               | А   | 14.4   |
| max. starting current (High Overload)         | I <sub>H</sub>   | %   | 200  |
| Note about max. starting current              |                  |     | for 1.875 seconds every 600 seconds  |
| Output voltage with $\mathrm{V}_{\mathrm{e}}$ | U <sub>2</sub>   |     | 230 V AC, 3-phase<br>240 V AC, 3-phase   |
| Output Frequency                              | f <sub>2</sub>   | Hz  | 0 - 50/60 (max. 300)   |
| Switching frequency                           | f <sub>PWM</sub> | kHz | 16<br>adjustable 4 - 32 (audible)  |
| Operation Mode                                |                  |     | U/f control<br>Speed control with slip compensation  |
| Frequency resolution (setpoint value)         | Δf               | Hz  | 0.03   |
| Rated operational current                     |                  |     |  |
| At 150% overload                              | I <sub>e</sub>   | А   | 9.6  |
|   |                  |     |  |

| Note   |                 |     | Rated operational current at an operating frequency of 16 kHz and an ambient air temperature of +50 $^{\circ}\mathrm{C}$  |
|--|-----------------|-----|---|
| Maximum leakage current to ground (PE) without motor | I <sub>PE</sub> | mA  | < 3.5 AC, < 10 DC   |
| Fitted with  |                 |     | Radio interference suppression filter   |
| Frame size   |                 |     | FS2   |
| Motor feeder   |                 |     |   |
| Note   |                 |     | for normal internally and externally ventilated 4 pole, three-phase asynchronous motors with 1500 rpm <sup>-1</sup> at 50 Hz or 1800 min <sup>-1</sup> at 60 Hz |
| Note   |                 |     | Overload cycle for 60 s every 600 s   |
| Note   |                 |     | at 230 V, 50 Hz   |
| 150 % Overload                                       | Р               | kW  | 2.2   |
| Note   |                 |     | at 220 - 240 V, 60 Hz   |
| 150 % Overload                                       | Р               | HP  | 3   |
| Apparent power                                       |                 |     |   |
| Apparent power at rated operation 230 V              | S               | kVA | 3.82  |
| Apparent power at rated operation 240 V              | S               | kVA | 3.99  |
| Braking function                                     |                 |     |   |
| Standard braking torque                              |                 |     | max. 30 % M <sub>N</sub>  |
| DC braking torque                                    |                 |     | adjustable to 100 %   |
| Control section                                      |                 |     |   |
| Reference voltage                                    | Us              | V   | 10 V DC (max. 0.2 mA)   |
| Analog inputs  |                 |     | 1, parameterizable, 0 - 10 V DC, 0/4 - 20 mA  |
| Digital inputs                                       |                 |     | 4, parameterizable, 10 - 30 V DC  |
| Relay outputs  |                 |     | 1, parameterizable, N/O, 6 A (250 V, AC-1) / 5 A (30 V, DC-1)   |
| Interface/field bus (built-in)                       |                 |     | OP-Bus (RS485)/Modbus RTU, CANopen <sup>®</sup>   |
| Assigned switching and protective elements           |                 |     |   |
| Power Wiring   |                 |     |   |
| Safety device (fuse or miniature circuit-breaker)    |                 |     |   |
| IEC (Type B, gG), 150 %                              |                 |     | FAZ-B32/1N  |
| UL (Class CC or J)                                   |                 | А   | 35  |
| Mains contactor                                      |                 |     |   |
| 150 % overload (CT/I <sub>H</sub> , at 50 °C)        |                 |     | DILM7 + DILM12-XP1  |
| 110 % overload (VT/I <sub>L</sub> , at 40 °C)        |                 |     | DILM7 + DILM12-XP1  |
| Main choke   |                 |     |   |
| 150 % overload (CT/I <sub>H</sub> , at 50 °C)        |                 |     | DX-LN1-024  |
| Motor feeder   |                 |     |   |
| motor choke  |                 |     |   |
| 150 % overload (CT/I <sub>H</sub> , at 50 °C)        |                 |     | DX-LM3-011  |

# Design verification as per IEC/EN 61439

| · · · · ·   |                   |    |  |
|---|-------------------|----|--|
| Technical data for design verification  |                   |    |  |
| Rated operational current for specified heat dissipation  | In                | А  | 9.6  |
| Heat dissipation per pole, current-dependent  | P <sub>vid</sub>  | W  | 0  |
| Equipment heat dissipation, current-dependent   | P <sub>vid</sub>  | W  | 105  |
| Static heat dissipation, non-current-dependent  | P <sub>vs</sub>   | W  | 0  |
| Heat dissipation capacity   | P <sub>diss</sub> | W  | 0  |
| Operating ambient temperature min.  |                   | °C | -10  |
| Operating ambient temperature max.  |                   | °C | 60   |
|   |                   |    | Operation (with 150 % overload)            |
| IEC/EN 61439 design verification  |                   |    |  |
| 10.2 Strength of materials and parts  |                   |    |  |
| 10.2.2 Corrosion resistance   |                   |    | Meets the product standard's requirements. |
| 10.2.3.1 Verification of thermal stability of enclosures  |                   |    | Meets the product standard's requirements. |
| 10.2.3.2 Verification of resistance of insulating materials to normal heat  |                   |    | Meets the product standard's requirements. |
| 10.2.3.3 Verification of resistance of insulating materials to abnormal heat<br>and fire due to internal electric effects |                   |    | Meets the product standard's requirements. |

| 10.2.4 Resistance to ultra-violet (UV) radiation         | Meets the product standard's requirements.   |
|--|--|
| 10.2.5 Lifting   | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.2.6 Mechanical impact                                 | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.2.7 Inscriptions                                      | Meets the product standard's requirements.   |
| 10.3 Degree of protection of ASSEMBLIES                  | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.4 Clearances and creepage distances                   | Meets the product standard's requirements.   |
| 10.5 Protection against electric shock                   | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.6 Incorporation of switching devices and components   | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.7 Internal electrical circuits and connections        | Is the panel builder's responsibility.   |
| 10.8 Connections for external conductors                 | Is the panel builder's responsibility.   |
| 10.9 Insulation properties                               |  |
| 10.9.2 Power-frequency electric strength                 | Is the panel builder's responsibility.   |
| 10.9.3 Impulse withstand voltage                         | Is the panel builder's responsibility.   |
| 10.9.4 Testing of enclosures made of insulating material | Is the panel builder's responsibility.   |
| 10.10 Temperature rise                                   | The panel builder is responsible for the temperature rise calculation. Eaton will provide heat dissipation data for the devices. |
| 10.11 Short-circuit rating                               | Is the panel builder's responsibility. The specifications for the switchgear must be observed.                                   |
| 10.12 Electromagnetic compatibility                      | Is the panel builder's responsibility. The specifications for the switchgear must be observed.                                   |
| 10.13 Mechanical function                                | The device meets the requirements, provided the information in the instruction leaflet (IL) is observed.                         |

| Number of HW-interfaces parallel            |    | 0           |
| Number of HW-interfaces other               |    | 0           |
| With optical interface                      |    | No          |
| With PC connection                          |    | No          |
| Integrated breaking resistance              |    | No          |
| 4-quadrant operation possible               |    | No          |
| Type of converter                           |    | U converter |
| Degree of protection (IP)                   |    | IP20        |
| Height                                      | mm | 230         |
| Width                                       | mm | 90          |
| Depth                                       | mm | 168         |
| Relative symmetric net frequency tolerance  | %  | 5           |
| Relative symmetric net current tolerance    | %  | 10          |
|   |    |             |

## **Approvals**

| Product Standards                    | UL 508C; CSA-C22.2 No. 14; IEC/EN61800-3; IEC/EN61800-5; CE marking |
|--------------------------------------|---|
| UL File No.                          | E172143   |
| UL Category Control No.              | NMMS, NMMS7   |
| CSA File No.                         | UL report applies to both US and Canada                             |
| North America Certification          | UL listed, certified by UL for use in Canada                        |
| Specially designed for North America | No  |
| Suitable for                         | Branch circuits   |
| Max. Voltage Rating                  | 1~ 240 V AC IEC: TN-S UL/CSA: "Y" (Solidly Grounded Wey)            |
| Degree of Protection                 | IEC: IP20   |
|                                      |   |
