

MPN	Description
1805436	Dymo Rhino 19mm White on Black Vinyl Tape

Overview

Coloured vinyl labels are a perfect solution for general labeling in and around a facility or where colored labels are required. Colour coding gives a better visual recognition to your identification needs.

These labels are ideal for warning and safety messages, patch panels/face plates and general labeling where colour labels are required. Additionally, vinyl labels can be used outdoors in direct sunlight.

Recognise your identification from a distance !

Coloured vinyl labels are a perfect solution if you want your identification to be clearly understood. The strong adhesive and the flexible material turns this vinyl tape ideal to be used for labels to stick onto many applications such as:

- machines and equipment (warnings and safety instructions)
- Buttons
- Barcode labeling
- Patch panels

- Outlets
- Wire and cables

Features:

- The permanent adhesive and flexible vinyl makes it ideal to be used for any flat/curved or textured surface where colour is requested.
- Combination ribbon/material gives an outstanding scratch-, solvent-, oil and UV resistance
- Indoor and outdoor use

The Dymo Rhino Vinyl tapes now feature new colour combinations, which have been created to meet the ANSI, ISO & OSHA standards now required in many facilities.

These include: ANSI Z535 (visual workplace), ISO 3864 (visual workplace), ANSI/ASME A13.1 (pipe marking), ISO 7010 (visual workplace) and ANSI 606-B (datacomms).

They are also compliant with the RoHS (Restriction of Hazardous Substances) and REACH (chemical substances impact on humans and environment) standards which are required in EU Countries.

	ANSI Z535 Visual Workplace	ISO 3864 Visual Workplace	ANSI A13.1 Pipe Marking	ISO 7010 Visual Workplace	ANSI 606-B DataComm
