

MegaPi Shield for RJ25

Description :

This module is a shield of MegaPi. It can turn MegaPi pins into Makeblock RJ25 ports. You can also connect MegaPi with Makeblock electronic modules.

Features:

- Four colour-labeled ports;
- One power indicator;
- Easy wiring with 6P6C RJ25 interface;
- Arduino library for easy programming;

Specification:

- Operating Voltage: 5V
- Dimensions: 2.5cm x 6.3cm
