IP65 LED TWINSPOOT EMERGENCY FITTING

- Twin 3W LED projectors: provide superior light output to traditional twinspace fittings
- Horizontally and vertically adjustable heads, 180° rotation across the horizontal plane
- IP65 rating utilising high quality polycarbonate enclosure: for installation in wet or dusty environments
- Individual indicator to show 'Lamps Healthy' and 'Charge'
- Reduced battery capacity requirement: allows a more compact design reducing the weight dramatically compared to traditional products facilitating easier installation
- Minimum 3 hour non-maintained functionality in emergency mode
- M.O.M: 1 / O.P.Q: 6

PERFECT FOR COMMERCIAL, INDUSTRIAL, WAREHOUSE & INDOOR APPLICATIONS
