***Deedlock AKT4000 Access Control Kits are designed for easy installation by electricians with minimal electrical installation experience.***

A number of single door access control kits are available with either; a keypad or proximity reader and a choice of securing the door with an electro-magnetic lock or electric release.

### Features & Benefits

- AC4221 proximity reader offers 999 users and includes 10 Fobs (AKT4223 or AKT4224)
- Additional AC7101 fobs may be ordered for the proximity reader for the AKT4223/AKT4224)
- Three keypad options are available; internal (APX-15) and external (APX-16 & APX16/PROX)
- Options of an electric release or electro-magnetic lock
- The electric release offers the option of fitting with a rim or mortice plate
- The electro-magnetic lock (minimum holding force 500lbs) is suitable for outward opening doors. (The AEMBR089 bracket is available for inward opening doors)

**NOTE:**

AKT4229 and AKT4230 kits offer the APX-16/PROX keypad with proximity, for use with (APX-16CARD) proximity cards. Reader offering increased security from the outside.

Supplied with easy to install quick start instructions, the kits come complete with everything you need, except for the cable, which we recommend using eight-core alarm security cable.

The proximity reader accepts up to 999 users and is suitable for internal and external applications with all the electronics securely located internally within the power supply units.
