

ROUGHNECK®
TOUGH TOOLS FOR A TOUGH WORLD™

PICK AND MATTOCK ASSEMBLY INSTRUCTIONS

Our Picks & Mattocks are shipped with the head and handle separate, here are details of how to assemble the tool

Insert the thinner end of the handle through the large end of the hole of the head

Turn the tool upside down and tap the protruding end of the handle onto firm ground to tighten

WARNING

Always wear safety goggles when using this tool. Never use this tool to strike metal. Improper use of this tool can cause possible eye or other bodily injury. Always before use check to ensure the head is tight and there are no cracks in head or handle. Discard tool if any defects are noticed. Be aware of and avoid buried gas and water pipes and electrical power lines. A severed power line could cause serious injury by electrocution.

TOOL TIP

Clean and lightly oil the head after use and store in a dry environment.

Olympia Tools extends a 10 year guarantee on workmanship and materials, this does not include normal wear and tear.

TO DE- ASSEMBLE

Hold the head by one end and tap the bottom of the handle on a hard surface and the head will come out.
