

SJ66 Aerobic Headworn Microphone

The MIC-SJ66 is a headworn microphone with a Mini Jack Connector for use with the S4.04 and S4.10 Series Beltpacks. The MIC-SJ66 has been designed primarily with the sports and aerobics industry in mind and is therefore built to withstand the everyday rigours of an active lifestyle.

The construction of this headband microphone offers a high degree of protection against the ingress of sweat. Precise placement is obtained with the 4mm diameter flexible gooseneck, and the condenser capsule is highly efficient at noise cancellation – helping prevent feedback or interference from crowd noise etc.

Specifications

Type	Super Cardioid Electret Condenser
Nominal Impedance	3000 Ohms
Max SPL	>125dB
Operating Voltage	2-10Volts min/max
Current Consumption	50uA
Frequency Response	60Hz-16kHz +3dB
Cable Length	1500mm
