

Bit-Check 30 Impaktor 1, 30 pieces

Bit-Checks Impaktor

EAN:	4013288156778	Size:	165x85x35 mm
Part number:	05057690001	Weight:	274 g
Article number:	Bit-Check 30 Impaktor 1	Country of origin:	CZ
		Customs tariff number:	82079030

- Upright positionable, multi-component Bit-Check
- Impaktor technology for above-average service life
- Particularly suitable for use with customary impact drivers
- Diamond coating for a secure fit in the screw, literally bites into the screwhead to prevent cam-out
- Holder with ring magnet for holding longer and heavier screws

1 Impaktor holder with retaining ring and ring magnet, 29 Impaktor bits. The Impaktor technology offers an above-average service life even under extreme circumstances thanks to the best possible utilisation of the material properties and the optimised geometry; particularly suitable for use with customary impact drivers; holder with ring magnet for simple holding of even longer and heavier screws, ideal for overhead work. The rough diamond-coating of the bits reduces the risk of a slipping out of the screw head thanks to the enhanced frictional resistance.

Bit-Check 30 Impaktor 1, 30 pieces

Bit-Checks Impaktor

Set contents:

897/4 Impaktor R
05057676001 1 x 1/4"x75

851/1 IMP DC
05057615001 2 x PH 1x25
05057616001 3 x PH 2x25
05057617001 2 x PH 3x25

855/1 IMP DC
05057620001 2 x PZ 1x25
05057621001 3 x PZ 2x25
05057622001 2 x PZ 3x25

867/1 IMP DC
05057628001 1 x TX 10x25
05057623001 1 x TX 15x25
05057624001 2 x TX 20x25
05057625001 3 x TX 25x25
05057626001 2 x TX 30x25
05057627001 2 x TX 40x25

840/1 IMP DC
05057603001 1 x 3.0x25
05057604001 1 x 4.0x25
05057605001 1 x 5.0x25
05057606001 1 x 6.0x25

At the workplace

Impaktor technology for an above-average service life even under extreme demands

The Bit-Checks can be positioned upright at the workplace so the tool is always quickly to hand.

Improved productivity

For use with impact screwdrivers. Improve productivity when screwdriving with power tools.

Above-average service life

Maximum utilisation of the material properties, a very special geometry – designed particularly to meet the extreme demands – as well a specific manufacturing process mean that Wera Impaktor tools have an above-average service life.

Bit-Checks Impaktor

Torsion zone

Torsion zone specially designed to absorb such forces and thereby protect the bit tip.

Impaktor-Bits

For an above-average service life. Maximum utilisation of the material properties, a very special geometry – designed particularly to meet the extreme demands – as well as a specific manufacturing process mean that Wera Impaktor tools have an above-average service life. Another product advantage is the coating of the Impaktor bits with minute diamond particles. These diamond particles reduce the cam-out effects – particularly high in power tool applications – which can lead to a slipping out of the screw head. The diamond particles literally bite themselves into the screw recess. This means that less contact pressure is required, something that greatly delays fatigue setting-in in power tool screwdriving jobs.

Impaktor holder with ring magnet

The Impaktor holder with ring magnet additionally holds longer and heavier screws absolutely securely. This enables a speedy and dependable positioning of the screw. It is also ideal for above-head work. Should the magnet function not be required in a particular situation e.g. when working with metal, it can be extracted from the screwdriving area and can thereby be "disabled". Mainly used in manual power tool applications.

TriTorsion system

The combination of the double torsion zones in the Impaktor holder and the torsion zone in the Impaktor bit result in the so-called TriTorsion system.
