

967/9967/9 TX SXL Multicolour HF 1 L-key set with holding function, long TX XL
Multicolour HF 1 L-key set with holding function, long, 9 pieces
L-Keys for TORX® Screws

EAN:	4013288193537	Size:	245x100x30 mm
Part number:	05024470001	Weight:	358 g
Article number:	967/9 TX XL Multicolour HF 1	Country of origin:	CZ
		Customs tariff number:	82054000

- L-keys for recessed TORX® screws
- Holding function for recessed TORX® screws
- Take it easy tool finder with colour coding according to sizes
- BlackLaser for high corrosion protection and long service life
- Wear-resistant clip material for enhanced durability

High quality L-key set for recessed TORX® screws. Holding function: the wedging forces resulting from the contact pressure between the drive tip and the screw profile securely hold the screw on the tool. Featuring an extra-long arm. Partially with ballpoint: the ball-end on the long arm allows for reliable working even in difficult installation situations. L-keys with thermoplastic sleeve out of easy-to-grip circular material. The sleeve ensures that work is pleasant and easy on the fingers even at low temperatures. "Take it easy" Tool Finder with colour coding according to size. The BlackLaser surface treatment provides outstanding surface protection, even against corrosion, and a long service life. The tools are quickly to hand thanks to the laser-engraved and thereby wear-resistant size markings on the L-keys. Come in a practical clip fastener out of wear-resistant material, enabling secure storage of the L-keys as well as simple removal.

05024474001	1 x TX 15x123
05024475001	1 x TX 20x137
05024476001	1 x TX 25x154
05024477001	1 x TX 27x172
05024478001	1 x TX 30x195
05024479001	1 x TX 40x224

TORX® HF profile

In tight assembly or disassembly situations, for example in engine compartments, it is not possible to securely hold the screw with the hand on the screwdriver, and the screw subsequently often gets lost. Lengthy searches or the loss of the screw (with the associated danger that could bring about) are the consequence. The HF tools developed by Wera are ideal because they feature an optimised geometry of the original TORX® profile. The wedging forces resulting from the surface pressure between the drive tip and the screw profile mean that the screw is securely held on the tool!

Surface protection

L-keys with BlackLaser surface treatment for outstanding surface protection and long service life. High corrosion protection.

Size identification

The size of each L-keys has been engraved by a laser. In addition SPKL L-keys have a colour coding according to sizes – for simple and rapid accessing of the required tool. Making it easy to find the right tool.

Secure hold and easy removal

The wear-resistant clip material ensures that the L-keys are securely held yet are easy to remove.
