

Applications:

18Gbps splitter. Solve EDID connectivity difficulty especially when mixed new and old displays are in use.

Ideal use:

High end 4K home AV systems. Corporate board rooms. Education facilities

Use the new SY HDMI and AOC links to ensure the most accurate and reliable connection

The SY HS-12E 18G Splitter with enhanced EDID controls

- **Compact multi tasking solution**

Miniature size makes it an ideal companion for managing connections to projectors and flat screens from AV receivers.

- **Help secure the best 4K**

The model is ideal for installers who rely on AV receivers for switching 4K signal between flat panels and Projectors.

- **Superior EDID management facility**

Secure connection between sources and displays with the best 4K to create the best HDR effects.

- **Connect legacy screens and projectors**

Ensure various resolutions and refresh rates can be seen on the widest range of displays. Enjoy the best OLED large screens and watch the latest HVEC.265 blu ray titles.

- **SY's legendary build quality and reliability**

Just one of many innovative unique solutions SY is offering installers and integrators across the UK and the EMEA

Formed in 1983, SY Electronics has been at the forefront of electronics design and development specialising in microprocessor systems, switchers, HDMI & VGA splitters and extenders (Up to 18Gbps), alongside an array of keypad controllers all designed to complement the AV industry and AV integrators.

Connect. Switch. Scale. Distribute. Control
