

# New Product Introduction

## 2JCIE-BU Environment Sensor,

### USB Type

#### FEATURES:

- Wireless sensor using low energy Bluetooth 5.0
- Multiple sensors (such as temperature, humidity, light, barometric pressure, sound noise, eTVOC and Acceleration) in one package provide multiple information at the same time
- Information loss is prevented by saving the date inside of the built-in memory even if communication is not established
- Small dimension packaging, allowing use anywhere
- Enables continuous monitoring of room air quality by using the VOC sensor

#### APPLICATIONS:

- Smart home (example- room monitor for comfortable sleep conditions)
- Building (example- office environment monitor)
- Weather conditions
- Real estate
- Vacation rental
