

The GaffGun™ Bundle

The GaffGun™ (patent pending) is the **single greatest advancement in floor tape** since gaffer's tape was invented. Saving over 90% of the time to lay floor tape, The GaffGun™ simplifies your job while saving time, money, and your back.

The GaffGun will lay tape over cables, extension cords, rope or even air hoses. Cables don't even have to be straight—the GaffGun™ uses a funneling system to **straighten and center your cables** and then lay tape over them.

We developed the patent-pending **CoreLock™ tape** to work in unison with the GaffGun, producing **consistent results** in every tape run. GaffGun™ CoreLock tape is wound on a plastic core that locks onto the GaffGun's hub, keeping tape centered and allowing use of the GaffGun's tensioning knob.

Every detail was designed to make **your most difficult jobs dramatically easier**

Includes:

The GaffGun™

Long extension handle

CableGuide - Small (compatible with 2"-3" tapes, 1-2 XLR cables)

CableGuide - Medium (compatible with 3" tapes, 3-4 XLR cables)

CableGuide - Large (compatible with 3" tapes, 5-6 XLR cables)

FloorGuide (for applications not involving cables)
