

logitech

STEP UP YOUR GAME.

Enhance every opportunity for collaboration with affordably priced, HD-quality video in any environment – in the office or on the road.

Logitech Webcams

Experience video calls that are the next best thing to being there in person: Logitech® webcams offer instant collaboration virtually anywhere with amazing quality, performance, and affordability.

High-precision Logitech optics with autofocus deliver remarkable resolution and clarity to help you look your best. Plus, Logitech RightLight™ technology provides a clear image in most lighting environments, even low light and bright sunlight. Plug-and-play

compatibility ensures your new webcam is simple to use right out of the box and will perform seamlessly with virtually any video conferencing software app—including the ones you already use.

Our entry-level Webcam B525 for on-the-go professionals is affordably priced so everyone can meet face-to-face anytime, anywhere. Webcam C925e and Webcam C930e deliver a fuller, richer collaboration experience with features like Full HD, H.264

video compression, stereo mics, and more. For the ultimate webcam experience, our top-of-the-line BRIO delivers advanced features like 4K Ultra HD, 5X digital zoom, RightLight™ 3 with HDR, support for infrared-based facial recognition, and multiple FOV options – 65°, 78°, and 90°.

With beautiful design and outstanding quality, the picture is clear: Logitech HD-quality webcams conveniently make any space a video-enabled space.
