Circuit Guard®

Commercial Grade, Portable Ground Fault

Hubbell Tough, Hubbell Safe!

Field Wireable

The Circuit Guard commercial grade plug is available in automatic reset and manual reset versions. The product features three cable grommets for proper strain relief. The housing is constructed of high strength polycarbonate material.

Automatic Reset   Manual Reset

Single Outlet Portable Line Cords

Single outlet line cords are available in manual and automatic reset versions. Line cords may be ordered in two foot or twenty-five foot lengths.

Triple-Tap Portable Line Cords

Triple-tap line cords may be ordered in two foot and twenty-five foot lengths. Line cords are available in both manual reset and automatic reset models. Manual reset models are recommended for safe-start applications.

OEM Equipment Integrated Cord Sets

Cord sets feature black cord with flying leads on one end. These replacement cord sets are available in fifteen foot and thirty-five foot lengths. Cord sets may be ordered in either manual or automatic reset versions.

Features

- Automatic or manual reset (safe-start) versions.
- Meets OSHA regulations for open neutral relay protection.
- High reliability mechanical flag indicates ground fault and power status.
- Raintight NEMA 3R housing is rated for indoor and outdoor use.
- Internal o-rings seal around test and reset buttons.
- Strain relief grommets fit #12 AWG through #18 AWG cord.
- Line cords feature high visibility, tough, yellow 12/3 SJEOW cord.
- OEM cord sets feature black cord and stripped wire leads. Cord is high flex 14/3 SJEOOW.
- cULus listed class A GFCI protection.
