Legacy Data Communications You Can Rely On

Looking for legacy
modem communications
for your industrial &
business applications?
Need a fall-back
communication system in
the event of a Broadband
failure?

The classic Dynamode

GM-LM56PCI/S is a proven PCI internal
v.92 modem that uses industry standard
modem protocols for complete
compatibility with your modem operations,
including that of the 'AT Command' set.

Ideal for standard modem
communications up to the standard v.92
protocol, including Group 3 Fax and other
standards, all built-in. Plug n' Play in
leading operating systems including
Microsoft(™) Windows 7, 8 and
Windows(™) 10.

Comes complete with RJ11 phone
and Line-in sockets for flexible
connectivity.
