

The Klein Tools self-levelling cross-line laser level is a high-performance laser levelling and alignment tool for professionals. This level provides a reliable, pendulum self-levelling system with clear, bright laser level lines. Equipped with an integrated magnetic mount and an additional versatile ceiling clip mount, Klein's cross-line level enables a multitude of alignment and layout applications. Note: Klein's model 93LCLS also offers a 90° vertical plumb-spot feature.

Specifications

Type:	Laser	Special Features:	Laser: 630-680nm, ≤ 1 mW each beam, Class II laser
Material:	Neodymium alloy	Batteries:	3 x 1.5 V AA alkaline batteries included
Plumb Laser:	No	Maximum Distance:	65 ft (20 m)
Accuracy:	±3/32" per 33' (±2 mm per 10 m)	Magnet Type:	Permanent rare earth
Ingress Protection:	IP54: Water and dust resistant	Included:	Hard Carrying Case
Overall Length:	2.625" (66.7 mm)	Overall Height:	5" (127.0 mm)
Overall Width:	5.25" (133.4 mm)	Weight:	1.6 lbs (0.7 kg) without batteries
