

End-of-life announcement: select Remote Emergency Power Off models

August 24, 2018

Eaton is announcing the discontinuing of several Remote Emergency Power Off (EPO) power distribution units, effective August 24, 2018. Eaton will be launching in their place several replacement models, set to become available on August 24, 2018. The new models will be plug, outlet and physical drop-in replacements.

- Orders already placed for retiring skus will be fulfilled based on availability.
- In instances where the quantities ordered are not available, Eaton sales and product management will work directly with customers to find technically and financially viable alternative.
