<b>Description of Changes</b>
The following part numbers are being obsoleted (obsolete status). Please verify that all substitute or alternate part numbers provided below are suitable for your specific application - Drawings are available via TE.com.

<b>Reason for Changes:</b>	
Product Improvement. Discontinuance. Dear Customer, You are receiving this notice because TE Connectivity has record of you purchasing a part or multiple parts on the list below. Within our continued efforts to manage/ optimize our product portfolio throughout the lifecycle, we've made the decision to supersede the parts stated thereafter. We are superseding the existing connectors with new connectors from different source tooling. The new connectors are drop-in replacements with very slight dimensional and/or visual differences. The dimensional changes are on the order of tenths of millimeters and in no way affect the function or intermateability. We opted for new part numbers to avoid any confusion.
