Description

With a design you usually find on higher end cases, the Seven pushes the CIT brand in to new territory. A MATX case designed with a black, plastic anti-dust front panel embraces 2 large RGB strips in the shape of the number 7. The strips can be synced with the rear 120 Single-Ring Halo Spectrum fan that is included giving any PC build a fantastic "out of the box" RGB and cooling solution that has 14 different colour modes to choose from.

The Seven also comes with a full acrylic left side panel, RGB control button, full length PSU shroud and lots of space for cable management making this a fantastic choice for anyone looking to change case.

Key Features

- **Fantastic Design** - The two large RGB strips located on the front panel with 14 different colour modes create an amazing look that will be the jewel in the crown for any setup.

- **Single-Ring Halo Spectrum Fan Included** - As well as an RGB strip the Seven includes a 1 x 120mm single-ring Halo Spectrum fan and with room for another seven fans this case will not only look great but has excellent airflow for when your case works that bit harder.

- **RGB Strip and Fan Syncd** - The RGB strip and the fan can easily be synced and can be easily changed together using the reset key.

- **Water Cooling Support** - As well as supporting eight fans the Seven supports a radiator up to 240mm at the front / Top and a 120mm radiator at the back to give you extensive cooling support.

- **Removable Dust Filter** - A removable dust filter included at the top of the Seven is included helps to prevent dust from getting into your build and helps improve the performance of your chassis.

Specifications

Chassis Dimensions (Excluding Fascia / Panels):	(D) 340 x (W) 190 x (H) 380mm
