Transfer from 6 inch to 8 inch wafer diameter for bipolar protection diodes

Details of this Change

Transfer of production from 6 inch to 8 inch wafer diameter for ESD protection diodes.

Production on 8 inch wafer diameter implies the use of the respective 8 inch wafer process technology.

Why do we Implement this Change

To increase flexibility and volume ramp-up.

Identification of Affected Products

Changed products can be identified by date code after implementation.

Product Availability

Sample Information

Samples are available upon request

Production

Planned first shipment 15-Apr-2019

Impact

no impact to the product's functionality anticipated.

Data Sheet Revision

No impact to existing datasheet

Disposition of Old Products

Existing inventory will be shipped until depleted

Additional information

Affected products and sales history information: see attached file

Self qualification: view online

Timing and Logistics

Your acknowledgement of this change, conform JEDEC J-STD-046, is expected till 08-Feb-2019. Lack of acknowledgement of the PCN constitutes acceptance of the change.
