RE: Littelfuse Insourcing Notification

Dear Valued Customer,

Littelfuse Inc., as the leading provider of total circuit protection solutions, is writing to notify you of an ongoing supply chain improvement initiative. We are choosing to insource some manufacturing processes to improve the quality and support of our supply chain. Finished good part numbers and their relevant subprocesses have been noted on the following pages. Please consider this letter as your notification for these efforts.

The specific operations vary by finished good part number, but are limited to plating and secondary CNC Machining operations (turning, forming, punching, and drilling). No finished good part number will exhibit changes in fit, form, or function as a result of this initiative. We have begun efforts as of this letter, and target completion by August 2019. Our current supply chain is being maintained so as to execute these efforts as a running change, with no disruption to your supply.

Please contact your local Littelfuse representative with any additional questions.

Thank you for your continued support,
